## CROPS ARE EXCELLENT

J. H. Hutchinson returned from North Powder Monday, where he had been for several days investigating the conditions of crops in that country. Mr. Hutchinson pronounces the crop outlook in that country the finest ever, and saw much grain there that he estimates will run fifty bushels to the acre. The rains of last week put the finishing touches on the crop prospects in that country, and a bountiful crop now seems an absolute certainty.—Union Republican.

## FATHER WHITE TENDERS RESIGNATION AS PRIEST OF THE LOCAL PARISH

Father J. M. Whyte has tendered his resignation as priest of the local Catholic church, and his successor, Father Alden of Ontario, is expected to arrive tonight, to take charge of the local parish.

The immediate cause for Father Whyte's resignation and temporary retirement from the church field, is due to his failing health. He is now at Hot Lake in a critical condition due to a collapse of his nervous system, and as soon as his health will permit, he will take his departure for California in an effort to rusticate in the milder climes. During the past three weeks he has been unable to

attend to his manifold duties here. Broadminded, and Popular.

La Grande loses a potent worker in religious lines. Father Whyte completed his fifth successive year as priest here, in April, and during that time he has molded friends untold in and out of the Catholic church. Those who know the father casually or intimately will affirm that few men command the education and have the same broadness of mind on any subject, religious or otherwise. His genial smile and sunny countenance will be missed throughout the city.

His successor comes tonight, bringing with him an enviable career in the Catholic church.

## SHOWER BATHS FOR FIRE DEPARTMENT MEMBERS

Showers baths for use of the fire department have been installed in the Central Hose house. The work was done last evening by the plumbers, who are members of the company and as the material was furnished at cost, the expense of the new treat is trifling. Double coils have been attached to the stove already in the department house, and a large tank is connected with it, in such a way that five minutes after the fire is going in the stove, the showers are ready with hot or cold water.

The innovation was given its maiden test last evening and every member of the department is today highly delighted with the affair. It is especially desirable for after a strenuous fight with fire, the members can take a shower bath without any trouble.

Joe Jones, the chief, suggested the matter and he is now sorry that the thought did not occur to him before.
