Large shipment of electric irons. Call at the light office for prices and see samples.

## ENGINE OFF THE TRACK

NUMBER 11 HELD HERE FOR SEVERAL HOURS.

Helper And Engine Come Together at Duncan This Morning.

Number 11 the early morning train from the east, was held in La Grande several hours this morning on account of a freight train wreck at Duncan.

An engine and three cars were off the track and upset. A helper engine was backing out from the siding, and the freight, not being in the clear, the inevitable happened, the engine jumping and taking with it three cars. The wrecker was sent out from here and made quick work of the cleanup. None were hurt.

### Official With Wrecker.

It is seldom that high officials happen around when wrecks occur, but Superintendent Bollons was here in '03" accompanied by Birkley who holds the position did before his promotion, and other officials and all went with the wrecker. The private car went on to Portland after the wreck had been cleared.

### Error Corrected.

In writing up the fact that Mr. Penington had purchased the stock of Mr. Rush in the C. C. Penington Dry Goods Company, we stated that the firm would be known as the C. C. Penington Dry Goods. This is a mistake as the firm will be known under its old name, that of C. C. Penington Dry Goods Company.

### Pastime Draws Big Crowds.

The Pastime Stock Co. is a fixture in La Grande. Theatregoers have expressed their approval of this clever company—and more than that—the crowds that are attending the plays assure a long engagement for these people.

The S. R. O. sign was out Saturday and Sunday nights, and "Christopher Jr." is a comedy with real laughs in it.

One of the features last night was the solo, "I would Live or I Would Die For You" by Louise Claire, female baritone. Her solos are a treat to the theatregoing public on account of the great range and power of her voice, such qualities being exceptional in a woman's voice.

**WANTED**—to rent a furnished house good location. Address or phone (X) care Observer.

# The Heating and Ventilating Problem Solved By the Waterbury System

## For Schools, Churches, Lodge Rooms, and Public Buildings

Does away with window ventilation, which is almost as great an evil as impure air. Maintains a uniform temperature all over the room. Eliminates the cold floor problem and the "dreaded hot stove." Adds 25 per cent to the seating capacity by removing the plant to the corner. Great saving in fuel bill. Requires no basement. Always under direct supervision. No expense to install. Will burn either wood or coal. Every plant guaranteed to meet the most exacting requirements. No Experiment, Plant in successful operation in Public School of La Grande. Invented by J. L. Waterbury who for many years taught in the public schools, after carefully studying the problem and long experimenting devised and patented the system. Those seated in the farther corner of the room will be just as warm as those sitting near the plant. Can be attached to any flue. Every school district should investigate this system.

M. SNIDER, Agent, LaGrande, Ore.

I have taught in the various schools of the county for the past fourteen years and the knowledge of the improper heating and ventilating conditions caused me to take this agency.
