Just Arrived.
Large shipment of electric irons. Call at the light office for prices and see samples.

BUNKER FIRES BREAK OUT FOLLOWING DOWNPOUR

Fire is raging in the interior of the big coal pile in the yards in half a dozen places today. In one place, just opposite the blacksmith shop, it was only by the most strenuous efforts and by flooding the coal with water that the fire was prevented from destroying part of the storage bin.

So far as practical experience goes there is but one way to put out such

a fire, and that is to move the coal. Wetting the stuff only makes the fire burn more freely, and it is probable that last night's rain will cause the fire to break out in numerous places. One of the locomotive cranes is working, and can move a car load per hour. The other one was sent back to Huntington to load gravel for ballast.

The Heating and Ventilating Problem Solved By the Waterbury System

For Schools, Churches, Lodge Rooms, and Public Buildings

Does away with window ventilation, which is almost as great an evil as impure air. Maintains a uniform temperature all over the room. Eliminates the cold floor problem and the "dreaded hot stove," Adds 25 per cent to the seating capacity by removing the plant to the corner. Great saving in fuel bill. Requires no basement. Always under direct supervision. No expense to install. Will burn either wood or coal. Every plant guaranteed to meet the most exacting requirements. No Experiment, Plant in successful operation in Public School of La Grande. Invented by J. L. Waterbury who for many years taught in the public schools, after carefully studying the problem and long experimenting devised and patented the system. Those seated in the farther corner of the room will be just as warm as those sitting near the plant. Can be attached to any flue. Every school district should investigate this system.

M. SNIDER, Agent, La Grande, Ore.

I have taught in the various schools of the county for the past fourteen years the knowledge of the improper heating and ventilating conditions caused me to this agency.
