WEST END BALLAST TOO

IMPROVED ROAD FROM PENDLETON TO UMATILLA.

Work Actually Commenced on The Dust Killer.

PENDLETON, July 28.—To keep down the dust between Pendleton and Umatilla a blanket of gravel is now being placed on the track and subgrade. A steam shovel is at work at the Umatilla gravel pit loading cars with gravel for this purpose. Special gravel trains are used to convey the gravel to its destination along the track.

This is the largest piece of ballasting done by the O. R. & N. in this vicinity for some time and when completed will be a great improvement and will certainly be appreciated by the traveling public.

Another great improvement or betterment just made by this company was the relaying of the fifteen miles of track between Umatilla and Coyote with 75 pound common standard steel rails. This work has just been completed.

Notice of Annual Fair.

The management of the First Eastern Oregon District Agricultural society, wishes to announce that the county fair will be held this year at La Grande, beginning October 4th, and lasting one week.

The new catalogue will be out now in a short time, the cause of the delay so far has been due to the effort to get the Wallowa county people to join us and combine the two fairs.

The new catalogue will be practically the same as the old one, but with this exception, many of the premiums have been raised and new features added, and also a large special list of premiums will be offered by the business men of La Grande.

Get your exhibits ready for the largest fair that Union county has ever had.

F. M. HUFFMAN, Sec.
First E. O. Dist. Agri. Society, La Grande.

A Pleasant Physic.

When you want a pleasant physic give Chamberlain's Stomach and Liver Tablets a trial. The rare mild and gentle in their action and always produce a pleasant cathartic effect. Call on your druggist for a sample. His law office in La Grande, Oregon, for them.

A Newsy Newspaper.
The Observer excels in real "news."

INTEREST INCREASES

UNION COUNTY AND LA GRANDE ENTITLED TO THIRTY.

Delegates Can Visit Seattle on Spokane Trip.

Much interest in the National Irrigation Congress, in Spokane, August 9-14, is being manifested throughout the county. We are entitled to about 30 delegates, and it is expected that more than that number will be present. In addition to the five delegates to be appointed by the county commissioners, each Commercial club is allowed to send two, each incorporated town five, and each irrigation company two.

Can Visit Both Spokane And Seattle.

One feature that will attract many people to Spokane is the arrangement made with the railroads by which delegates to the irrigation congress can visit Seattle without paying any extra fare. That is, tickets to Seattle, with stopover privileges at Spokane may be bought for no more than tickets direct to Seattle. Those who wish to go to the fair, and are willing to serve as delegates at the irrigation congress would do well to see the mayor of their city, and obtain credentials.

Jobs For The Unemployed.

NEW YORK, July 27.—Reports from the grain fields of the west received in New York, have furnished a suggestion for the National Association for Unemployed Men, which it is said will furnish work for hundreds of men now seeking employment. The National Association for the Unemployed is a semi-philanthropic organization with such men as Otto Bannard, the banker; Jacob Schiff, E. H. Macy and other multimillionaires as officers. Urgent requests for men have been received from Nebraska, Kansas and other western states. Similar appeals have come from the small grain raising states every season for years, but this summer is louder and more plaintive than ever before. The association, it is known, is willing to provide transportation for men who will go west. Reports similar to those from Nebraska and Kansas have also been received from the Dakitas and Minnesota.

The Heating and Ventilating Problem Solved By the Waterbury System

For Schools, Churches, Lodge Rooms, and Public Buildings

Does away with window ventilation, which is almost as great an evil as impure air. Maintains a uniform temperature all over the room. Eliminates the cold floor problem and the "dreaded hot stove," Adds 25 per cent to the seating capacity by removing the plant to the corner. Great saving in fuel bill. Requires no basement. Always under direct supervision. No expense to install. Will burn either wood or coal. Every plant guaranteed to meet the most exacting requirements. No Experiment, Plant in successful operation in Public School of La Grande. Invented by J. L. Waterbury who for many years taught in the public schools, after carefully studying the problem and long experimenting devised and patented the system. Those seated in the farther corner of the room will be just as warm as those sitting near the plant. Can be attached to any flue. Every school district should investigate this system.

M. SNIDER, Agent, LaGrande, Ore.

I have taught in the various schools of the county for the past fourteen years and the knowledge of the improper heating and ventilating conditions caused me to take this agency.
