M. L. LEADER.

Just Arrived.
Large shipment of electric irons. Calls at the light office for prices and see samples.

NO CARRIERS FROM HERE

STATE MEETING MEETS AT CORVALLIS TOMORROW.

Local Servants of Uncle Sam Can't Attend Meeting.

Though the army of Uncle Sam's rural mail carriers of Oregon are to meet in Corvallis tomorrow in annual session, none from here will attend. These meetings are usually incentives for visits from one or more of the La Grande carriers, but will not be this year.

The session which opens tomorrow promises to be one of the best in the history of organization. Important and prominent men of the state are slated to participate. It is only a one-day session.

Hyde Accidentally Shot.

While in camp with an engineering corps on the Powder river valley irrigation project on lower Powder Monday evening and while the members of the party were engaging in target practice with a 22-calibre pistol, Chairman Willie Hyde, son of Attorney Chas. F. Hyde, of this city, accidentally shot himself through the fleshy part of his left arm, the ball passing clear through, but doing no serious damage, relates the Baker City Democrat.

He was resting the pistol over his arm.

Young Hyde was brought to this city as soon as possible by team by another member of the surveying crew, Haskell Johnson and his wound derressed by Dr. Roy McDaniel. His wound gave him little trouble and assurance is given that he will soon be himself again.

Notice of Annual Fair.

The management of the First Eastern Oregon District Agricultural society, wishes to announce that the county fair will be held this year at La Grande, beginning October 4th, and lasting one week.

The new catalogue will be out now in a short time, the cause of the delay so far has been due to the effort to get the Wallowa county people to join us and combine the two fairs.

The new catalogue will be practically the same as the old one, but with this exception, many of the premiums have been raised and new features added, and also a large special list of premiums will be offered by the business men of La Grande.

Get your exhibits ready for the largest fair that Union county has ever had.

F. M. HUFFMAN, Sec.

The Heating and Ventilating Problem Solved By the Waterbury System

For Schools, Churches, Lodge Rooms, and Public Buildings

Does away with window ventilation, which is almost as great an evil as impure air. Maintains a uniform temperature all over the room. Eliminates the cold floor problem and the "dreaded hot stove," Adds 25 per cent to the seating capacity by removing the plant to the corner. Great saving in fuel bill. Requires no basement. Always under direct supervision. No expense to install. Will burn either wood or coal. Every plant guaranteed to meet the most exacting requirements. No Experiment, Plant in successful operation in Public School of La Grande. Invented by J. L. Waterbury who for many years taught in the public schools, after carefully studying the problem and long experimenting devised and patented the system. Those seated in the farther corner of the room will be just as warm as those sitting near the plant. Can be attached to any flue. Every school district should investigate this system.

M. SNIDER, Agent, La Grande, Ore.

I have taught in the various schools of the county for the past fourteen years and the knowledge of the improper heating and ventilating conditions caused me to take this agency.
