SULLIVAN TO BE IN CHARGE

PRESIDENT OF A. A. U. WILL HAVE SUPERVISION.

Head of Greatest Athletic Organization at Seattle.

SEATTLE, August 3.—(Special)—President J. E. Sullivan of the A. A. U. will arrive in Seattle on August 9th, to take charge of the national A. A. U. championships for 1909 which will be held in the stadium of the Alaska-Yukon-Pacific exposition August 13 and 14.

As the head of the association of amateur sports in the United States, President Sullivan is without a doubt the most prominent sport follower in this country. He is now in New York, but will leave Tuesday by way of Chicago for the Seattle games.

The New York entries in the meet will leave with President Sullivan. They will pick up the Chicago Athletic association men in Chicago and will come to Seattle in a special train.

With Mr. Sullivan as referee in the big games the greatest confidence in the officials is assured. He has announced his intention of instructing the other officials in the meet personally several days in advance so that they will be thoroughly familiar with their duties.

The eastern athletes have been preparing for the past month for the contest which they realize will be a difficult one to win. The western men are also working hard in the hopes of wresting the victory from the east.

Intense Colicky Pains Relieved

"For some years I suffered from intense colicky pains which would come on at times and from which I could find no relief," says I. S. Mason of Beaver Dam, Ky. "Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me by a friend. After taking a few doses of the remedy I was entirely relieved. That was four years ago and there has been no return of the symptoms since that time." This remedy is for sale by all good dealers.

For Sale.

Furniture consisting of range, kitchen cabinet, dining table, chairs, beds, dresser and small side table, will be sold at private sale Tuesday, Wednesday and Thursday at the residence of D. H. Jordan opposite court house.

For Sale.

We have a large amount of old papers which we must get rid of in some way. They are good for underlaying carpets, for covering shelves, and anything for which waste paper is used. They are tied in large packages waiting for you. If you wish any call at this office.

The Heating and Ventilating Problem Solved By the Waterbury System

For Schools, Churches, Lodge Rooms, and Public Buildings

Does away with window ventilation, which is almost as great an evil as impure air. Maintains a uniform temperature all over the room. Eliminates the cold floor problem and the "dreaded hot stove." Adds 25 per cent to the seating capacity by removing the plant to the corner. Great saving in fuel bill. Requires no basement. Always under direct supervision. No expense to install. Will burn either wood or coal. Every plant guaranteed to meet the most exacting requirements. No Experiment, Plant in successful operation in Public School of La Grande. Invented by J. L. Waterbury who for many years taught in the public schools, after carefully studying the problem and long experimenting devised and patented the system. Those seated in the farther corner of the room will be just as warm as those sitting near the plant. Can be attached to any flue. Every school district should investigate this system.

M. SNIDER, Agent, LaGrande, Ore.

I have taught in the various schools of the county for the past fourteen years the knowledge of the improper heating and ventilating conditions caused me to this agency.
