## ASSAY ORE AT BAKER

LOCAL PEOPLE FIND LEDGE IN HAINES PROPERTY.

Indications Point to Good Pay in Streak Located.

T. D. Mathews and H. D. Coger, who for the past five years have been trying to find a ledge on their mine 12 miles west of Haines, have at last been successful and all who have seen the ore, pronounce it excellent. This morning Mr. Mathews leaves for Baker City with a number of samples to have assayed, and if it proves as good as its general appearance would indicate the proprietors will return to the mines this summer and prepare for extensive development. The ledge is three feet wide between well defined walls.

## CATHOLICS IN SESSION

CHICAGO, Aug. 4.—Coming at a time in the history of the temperance cause that will make it notable, the Catholic Total Abstinence union met in national convention in Chicago today. Opponents of the "demon rum" from the ranks of the Roman Catholic church are here in force, nearly every state in the union having its representatives. Daily sessions will be held tomorrow and Friday, and several prominent churchmen will address the convention.

What constitutes temperance will be a subject of discussion during the meeting. Speaking on this topic, President O'Callaghan, of the Illinois union, said: "Even in our societies there is a great difference of opinion among the members as to what constitutes temperance. There are many who are prohibitionists and many who are not. The addresses and the spirit of the convention are all planned to create a great temperance sentiment, and there is no effort made to induce the members to follow any particular line in carrying out their ideas as to the best means to make this a temperance state and country."

Pennsylvania Democrats. HARRISBURG, Pa., Aug. 4.—Nominations will be made for state treasurer, auditor general and a supreme court vacancy by the Democratic state convention opened here today.

**Seaboard Meeting.**  
PETERSBURG, Va., Aug. 4.—A special meeting of the stockholders of the Seaboard Air Line was convened here today for the purpose of voting upon the plan of adjustment and deposit agreement. Similar meetings will be held this week in Raleigh, N. C., Columbia, S. C., Jacksonville, Fla., Atlanta, Ga., and Birmingham, Ala.

# The Heating and Ventilating Problem Solved By the Waterbury System

## For Schools, Churches, Lodge Rooms, and Public Buildings

Does away with window ventilation, which is almost as great an evil as impure air. Maintains a uniform temperature all over the room. Eliminates the cold floor problem and the "dreaded hot stove," Adds 25 per cent to the seating capacity by removing the plant to the corner. Great saving in fuel bill. Requires no basement. Always under direct supervision. No expense to install. Will burn either wood or coal. Every plant guaranteed to meet the most exacting requirements. No Experiment, Plant in successful operation in Public School of La Grande. Invented by J. L. Waterbury who for many years taught in the public schools, after carefully studying the problem and long experimenting devised and patented the system. Those seated in the farther corner of the room will be just as warm as those sitting near the plant. Can be attached to any flue. Every school district should investigate this system.

M. SNIDER, Agent, LaGrande, Ore.

I Have taught in the various schools of the county for the past fourteen years and the knowledge of the improper heating and ventilating conditions caused me to take this agency.
