Resolution of condolence, 5c a line.

Governor Benson says he will call a special session of the legislature to pass the 16th amendment to the Federal constitution, but it will be submitted to the next regular session.

The coming fair is the next big thing of a public nature that will interest the county as a whole. The encouragement the committee is receiving is certainly a stimulus for them to make this the greatest fair held in the county for years.

With one railroad, and possibly two headed into central Oregon, we may not hear so much regarding the enactment of a constitutional amendment for the building of state railroads. While the suggestion met with no strong opposition there is really no enthusiasm toward it. Our state is out of debt and there are few who would have it otherwise.

President Taft and President Diaz will meet at El Paso, Texas, October 16. President Taft is one of the biggest presidents of the biggest republics on earth and President Diaz is one of the biggest presidents of one of the smallest republics on earth. This meeting will doubtless result in closer relations between these two adjoining republics. A great deal of American capital has poured into Mexico within the past few years and the Mexican government is giving it welcome.

THE PROBABLE OPENING PRICE.

Bluestem wheat is quoted today in Portland at one dollar per bushel, which means about 85 cents in Grande Ronde valley, and this is the price that the market is expected to start off with and will probably remain at about this figure throughout the season. With our large yield and this exceptional remunerative price there will be all kinds of money in this county this year. The hayman has reason to rejoice here also there is no trouble to secure \$13 for good timothy and alfalfa commands attractive figures. In fact what is there that is produced in large quantities in this county that is not bringing in top notch prices?

NEW IRRIGATION PROJECT.

Eastern Oregon is to have a new irrigation project comprising thousands of acres in Malheur county. Plans descriptive of the land included in the project and showing the reservoir site as well as diversion system were filed in the United States land office yesterday afternoon to secure the filings on the reservoir site consisting of 1800 acres at the head of Jordan valley in Idaho. The system when completed will have the bulk of its land to be irrigated in Malheur county, Oregon, while the big reservoir will be across the boundary line in this state, says a Boise paper.

The Jordan valley irrigation company is promoting the new project with George S. Parks and Fred J. Palmer in charge. It is understood that there are a large number of prominent eastern Oregon capitalists backing the deal and that the project is not only a feasible one but will have an excellent water supply as well as place under irrigation some of the finest land in the eastern part of Oregon.

The town of Jordan valley is located on Jordan creek in Malheur county, Jordan creek is a branch of the Owyhee river and the proposed irrigation project will cover land that is in the

proposed Owyhee government irrigation project located in southeastern Oregon and south of Boise. The reservoir site is found in the foothills leading to the Owyhee mountains in Owyhee county of this state. It is the intention of the promoters to start construction work on the reservoir and canals during the coming fall.

PIPE READY TO SHIP IN

HUGE COMMISSARY WILL BE BUILT HERE.

Great Advance in Arrangements on Beaver Creek Water Project.

Steel piping is to be used in the construction of the Beaver Creek water project is now being constructed, and portions of it ready for shipment to La Grande, according to mail advices received by Mayor M. K. Hall, following his return to the city last evening from a visit to Spokane and other points.

Things are humming on the preliminaries. Tonight the council will pass the monster ordinance in this connection. Plans for the establishment of a commissary in La Grande are under way.

All provisions which can be supplied here will be purchased in La Grande, and all help that can possibly be secured here will be put on the payrolls. Unavailable help and material will be brought in from outside points.

Though it is likely that the Perry logging road up Rock Creek will be used to transport the material to the "front" that fact has not been definitely established yet.

With pipe made and part of it on the way to La Grande, very little space remains until dirt will actually be flying on the project.

Strike More Serious Still.

STOCKHOLM, Aug. 5.—A committee representing the Swedish Employers association and also the allied trades union, today notified the labor ministry, that they did not want the government to attempt to conciliate their differences.

Both sides declare the great strike must be settled between themselves to insure permanent peace.

Employers in the statement, declare the labor men violated the agreements. The public is suffering because the street car and cabmen are out, and food supplies are low. Unionists allege the employers conspired to greatly reduce the wages.

TODAY THE LAST DAY.

Last Day to Register For Land in the Big Land Opening.

Today is the last day for the homeseekers to register for lands in the Cover d'Alene, Flathead and Spokane land opening. There will all told be probably 250,000 homeseekers registered for lands. Quite a few from here, rusting to their luck, registered.

NEW JAIL COMPLETED.

Work of Installing New Jail Will be Finished Today.

The work of installing the new county jail at the court house will probably be finished late this afternoon. The jail was purchased from the Pauly Jail Building company of St. Louis, and cost the county \$3000.

S.S.S. PURELY VEGETABLE

The absolute vegetable purity of S.S.S. has always been one of the strongest points in its favor, and is one of the principal reasons why it is the most widely known and universally used of all blood medicines. A great many of the so-called blood purifiers are really nothing more than strong mineral mixtures which act so unpleasantly and disastrously on the delicate membranes and tissues of the stomach and bowels, that even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S.S.S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. It is made entirely of the healing and cleansing extracts and juices of roots, herbs and barks, each of which is in daily use in some form by physicians in their practice. Years of work and research have proven S.S.S. to contain everything necessary to purify the blood and at the same time supply the system with the purest and best tonic effects. S.S.S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles, and it leaves the system in perfect condition when it has purified the blood. Book containing much valuable information on the blood and any medical advice desired sent free to all who write.
