

The Chance of Getting Good or Bad CLOTHING

As specialists in wearing apparel we owe it to our customers to point out the weakness and defects in the average run of clothing either custom made or ready made. Most of it is haped with the "hot iron," for any garment may be doctored up this way to sell. You probably have worn coats that began to lose their shape only a few days after you have bought them. Usually the trouble is that you can't see the inside of the coat—the material and workmanship.

MANY CURIOS COMING IN

MISS ROBERTS HAS VALUABLE RELICS IN SIGHT.

Numerous And Valuable Affairs Collected Already.

Curios such as rightfully belong in the larger museums of the country have been collected by Miss Roberts, editor of the North Powder News, as chairman of the North Powder Division of relic seekers for the coming fair. She has a blanket which was woven by old time slaves in Virginia home.

She has trace of relics which will be brought in due time from Cove, one of which are some goods purchased at the Abraham Lincoln sale and a melodian from Union which was the first brought to this county. Another freak is a bill of sale for a purchase of some fur purchased in St. Louis in 1820, from a concern running in opposition to the Hudson Bay company.

Murdered on Father's Grave.

ROCHESTER, N.Y., Aug. 9.—Anna Schumascher, aged 17, was found today on her father's grave, evidently brutally murdered Saturday. It is apparent the girl was struck down while in the act of placing flowers on the grave.

The head was beaten to a pulp.

spread upon a platform. They will be in their original envelopes with the name of the applicant on the inside. This pile of envelopes will be stirred with a pitchfork as the drawing progresses. The first envelope drawn will contain the name of the lucky person. It is estimated that the first hundred selections will be worth several thousand dollars each, and the first dozen or so which enable the holders to select land near towns, will be prizes indeed.

Three thousand homesteads are contained in the areas to be disposed of at the drawing. Because of the heavy filing the chance of becoming the possessor of a quarter section of agricultural timber or grazing land is reduced to about one in a hundred. It will be worth while for the lucky ones, as best quarter section in the white pine belt of northern Idaho will cut 5,000,000 feet of saw timber worth from \$3.75 to \$4 a thousand feet on the stump.

There are all kinds of land to be found in these reservations. Some of it is excellent agricultural land, some of it is semi-arid, some will have to be irrigated and some of it is so rough a mountain goat cannot climb it. So this variety will give the lucky ones a grand opportunity for selections. In order that they may have plenty of time for this they will be given until April 10, 1910, to make their entries.

IRRIGATION IS NOW IN SESSION.

(Continued From Page One.)

tween Secretary of the Interior Ballinger, who differed with Gifford Pinchot, chief of the Forester Bureau. Pinchot championed Roosevelt's policies and Ballinger, while not opposing, has changed the Roosevelt plans and this met Pinchot's opposition and both men will meet before the congress and advocate both sides. They will fight it out on the floor. Both are said to be determined to place the irrigation Congress on record.

George Turner of Spokane, was appointed chairman of the committee on credentials at the irrigation congress by President Barstow this morning. The appointment of Ex-Governor Pardee of California, as chairman of the committee resolutions is regarded a first victory for the friends of the reclamation forests, as Pardee is opposed to the water trust.

President Taft's message was received and read: "I greatly regret I am unable to be present to hear the discussion and get the benefit of your deliberations. I have deepest sympathy with the general object of the National Irrigation Congress and can count on my earnest endeavor to further the cause of reclamation by irrigation in every part of the country under the jurisdiction of the federal government." E-RU-SA—THE ONLY LAWFUL PILE CURE.

Because it does not contain narcotics, mercury, cocaine, lead or any poisonous drugs. Because E-RU-SA cures piles. U. S. Dispensary recommends every ingredient of E-RU-SA. Drug laws make "false or misleading statements" a crime. Therefore the sale of all old or narcotic pile medicines is illegal because they effect the brain and spinal marrow; produce constipation and never cure. Only druggists of highest standing sell and endorse E-RU-SA.
