

# The Chance of Getting Good or Bad CLOTHING

As specialists in wearing apparel we owe it to our customers to point out the weakness and defects in the average run of clothing either custom made or ready made. Most of it is haped with the "hot iron," for any garment may be doctored up this way to sell. You probably have worn coats that began to lose their shape only a few days after you have bought them. Usually the trouble is that you can't see the inside of the coat—the material and workmanship.

## SECOND MAN RELEASED

The second and last suspect held on a charge of being implicated in the alleged holdup in the local yards two nights ago when MacIlroy affirms he was assaulted and robbed, was turned loose late last evening, and both suspects are now at liberty.

The one against whom most suspicion lay, based on statements made by MacIlroy during the brief conversations held with him before he disappeared yesterday morning, was held as long as the statutes would permit without a hearing and when that time expired he was released.

MacIlroy has not been found yet.

### PUEBLO CHOICE OF COMMITTEE.

(Continued From Page 1.)

congress today fulfilled every prediction that this session would prove the hottest in the history of the organization. George Otis Smith, director of the geological survey rose to defend Ballinger, and was replied to by Ex-Governor Pardee of California. Smith defended his superior in gallant style, and endeavored to convince the delegates that Ballinger had been misrepresented. Smith said: "It has been charged the secretary failed in his stewardship. In April, Ballinger restored lands and again withdrew those covering power sites. This concession was made to Montana citizens because they wanted agricultural land. If these lands were restored in April, why did the power interests wait till June to file; while writers have been fabricating we have been withdrawing lands. I believe there has been too much criticism against public servants at this congress."

Pardee replied: "I said yesterday I was sorry Ballinger left the hall when he did, but I am glad he sent a man to defend him. I call your attention to the fact that Ballinger restored all lands. Why were agricultural lands restored and others eliminated? I have been told the reason was because the pressure of agriculturists, some lawyers and some power men. On the very day he took office, Ballinger began to restore power sites."

Pardee then read a list of the millions of acres he said Ballinger had restored.

"It would be better if these denials were made by Ballinger instead of one of his subordinates. We are here to consider the interests of all the people. I desire this matter to be cleared up as it was in the time of Garfield. The public official should be willing to be criticised. An agent of the people of this country should be called to account whenever it is necessary. Let me state finally that Garfield withdrew the land with power sites, and Ballinger restored them."

A great ovation followed Pardee.

### E-RU-SA—THE ONLY LAWFUL FILE CURE.

Because it does not contain narcotics, mercury, cocaine, lead or any poisonous drugs. Because E-RU-SA cures piles. U. S. Dispensary recommends every ingredient of E-RU-SA. Drug laws make "false or misleading statements" a crime. Therefore the sale of all old or narcotic pile medicines is illegal because they effect the brain and spinal marrow; produce constipation and never cure.
