A little precaution on the part of our city and citizens in an effort to clean up the city in preparation of our guests, the Mormon choir and the many visitors who will accompany them. A little effort on the part of all will make quite a difference as to the opinion these people will always retain of La Grande. Pick up the papers in the streets and lawns.

About the busiest men in this country are those who are working for the Union county exposition. This committee is meeting about three nights out of every week, with several afternoon sessions thrown in. It requires a vast amount of detail work to bring about the results that are to be obtained.

A nice well equipped depot set amidst a beautiful green park would certainly be an improvement over our present accommodations and cinder path. It would give the visitor a vastly different impression of our city and county as he steps from our trains. This we understand is one of the near possibilities.

While we have so many visitors let us remember to forget formalities and make it a portion of our city to extend a hearty greeting. Nothing costs so little and nothing has such lasting effects upon the stranger in a strange land as to find a courteous, opened-hearted people who are loyal boosters for their own country.

We will have no less than 500 visitors in our city Monday. If your joints need lubricating, get busy. Don't stand around like a mummy, show our guests that this country produces big hearted people as well as big crops.

Not a few of our residents last night became so uncomfortable during the night, that they skinned around for a portion of their bed covering, which they had discarded the few previous nights.

EXHIBITION AT DEPOT

Intricate maneuvers such as will be given by the Denver Modern Woodmen of America drill team at the national competition at Seattle the 25th instant, were witnessed by a few privileged this morning, when the delayed No. 7 was waiting here for minor repairs.

The jovial crowd from Denver took advantage of the opportunity to furnish amusement for fellow passengers and incidentally to brush up a little in their drills which are soon to be given at Seattle. They executed without the lights of course, the revolving colored light drill which is so spectacular. For precision, accurateness and vim, the spectacle was a pleasing one. The team is under the captaincy of J. W. Fryer, and the camp is known as Enterprise, No. 9743.
