A. W. Arnold, Pres. & General Mgr.  
F. S. Stanley, Vice-President.  
F. E. Arnold, Secretary & Treasurer.

801-808 CHAMBER OF COMMERCE

Portland, Oregon, Sept. 1, 1909.  
Mr. Geo. H. Currey,  
La Grande, Oregon.

Dear Sir:  
Mr. Arthur W. Arnold is going to La Grande tonight to endeavor to place some stock in a patent damper. I, personally, have taken quite a block of the stock. I consider it one of the best patents on the market and believe that it will be a money maker. I herewith enclose you a circular which gives all the points of the patent.  
I would like to see my friends in La Grande interested in the company, as the returns no doubt will be large from the invention.  
Yours very truly,  
F. S. STANLEY.

The Safety and Economy Damper Company organized under the laws of the state of Oregon, with a capital stock of \$100,000, fully paid and non-assessable, par value \$1.00 per share, owns and controls the inventions of A. W. Arnold in Automatic Damper and Fire Governors, which are among the very important inventions of modern times.

The Arnold Damper, as shown by the cuts, is a simple, automatic device which forces the fire to control itself, and in so doing it is a fuel saver of from 25 per cent to 50 per cent, a fire insurance and a wonderful convenience.

It is so made that it may be adjusted to permit of any degree of heat and that degree of heat in a uniform manner regardless of the class of fuel. It is a control of the fire at all times, night and day, even in your absence, and is beyond human power in its sensitiveness to the heat.

The sum and substance of our proposition is, we have a device that should be used in every heating and cooking stove and every furnace, large and small, in this country, and the advantages received from it are so many that no man can afford to be without it, for it is a saving of money and insurance and is a convenience. While the field for its use in stoves and furnaces is very large, the field for its use in larger stacks is very large, and, taken together, the field for our business is wonderful in its extent and magnitude.

It has every advantage as an advertising proposition, since it shows what it is and what it will do from a cut and can be delivered by mail, and when received it may be installed by a person, whether or not experienced.

The Arnold Damper has been demonstrated and personally inspected by some of the best authorities in the United States, including some of the United States Engineers at Washington, D. C. All have complimented it very highly and consider its value beyond estimation, for it is a blessing to humanity.

### OUR OFFER TO INVESTORS IS:

We are now placing on the market a limited amount of stock at par. The great advantage in our offer is we are going to pay enormous dividends, since our capitalization is so very small, and the stock is bound to go to many times its par value in a short time. The business in the City of Portland will pay a good dividend on this capital, and when the field throughout this country is considered, it is plainly seen why we can pay enormous dividends.

Our plan of action is simply to raise sufficient money by the sale of stock on which to start the manufacturing and sale of goods in this and all parts of the country. Our business will gradually grow into a large advertising and mailing business, for it is adapted as such from every point of view. Do not miss the chance to buy some of the stock we now offer to you, for the rights now offered on a basis of \$100,000 are worth many millions of dollars when our business is developed. Not only will our business pay large profits to us, but our goods will be a blessing to the people of the country. The officers of this company are business men of wide experience and will bear the closest investigations for reliability and sincerity of purpose.

Mr. Arnold is making his headquarters in the office of McKennon-Phy-Roberts.

## BIG CROWD ATTEND FAIR

Enormous crowds are viewing the state fair at Salem, which is itself up to a high standard, according to Walter M. Pierce, who returned this morning from Salem and Portland. Mr. Pierce was at the fair yesterday. The grand stand held 5,000 people and in all about 16,000 or 17,000 people paid admissions. He reports the fair interesting and containing many excellent features. Mr. Pierce went on to Hot Lake on the morning train and returned to La Grande later in the evening.

## Are Glasses Needed

Two conditions daily presents themselves Ocular Refraction. **Condition 1:** The optical disturbance apparently serious, is of a temporary important character and glasses are not needed. **Condition 2:** The optical disturbance apparently, unimportant, is of a permanent nature and glasses are necessary. How distinguish between the conditions? Your course is plain. Avoid the inexperience, consult the experience. The rashness of the expert will not permit him to distinguish permanent conditions from temporary conditions, and he may advise glasses when they are not needed, or declare them unnecessary when the welfare of your eyesight demand their use, the experienced does not make those mistakes. Consult Dr. Mendelsohn. He has the experience and knowledge of every nerve in the eye. Dr. M. P. Mendelsohn is permanently located at 1105 Adams avenue, opposite the postoffice. Satisfaction guaranteed, and prices very reasonable. Office hours from 8:30 to 12 and from 1 p. m. to 5 p. m. Special appointments in the evenings.

### E-RU-SA—THE ONLY LAWFUL PILE CURE.

Because it does not contain narcotics, mercury, cocaine, lead or any poisonous drugs. Because E-RU-SA cures piles. U. S. Dispensary recommends every ingredient of E-RU-SA. Drug laws make "false or misleading statements" a crime. Therefore the sale of all old or narcotic pile medicines is illegal because they effect the brain and spinal marrow; produce constipation and never cure. Only druggists of highest standing sell and endorse E-RU-SA.
