FASTER BASEBALL NEXT YEAR APPEARS CERTAIN

Passing of nineteen nine baseball in La Grande is now a matter of fact, and with the death of this class of baseball, becomes evident a very certain truth that baseball hereafter must be of a different class and kind than has been seen here this summer. The games seen in La Grande this summer, with three or four exceptions, were not of a kind that will create support next year. Last season's classy club spoiled further mediocre stuff. Manager Lincoln is not to blame, it is simply a matter of conditions as they exist. With no organization behind the club, the games were played in a listless manner usually. The same thing was true all over Eastern Oregon, and it is a safe bet that hereafter class D baseball will exist in this section of the country with possibly a portion of Idaho connected with it.

Already Boise promoters are writing to Mr. Lincoln asking for prospects of next year's league, stating that they got all the class C ball they wanted last year. The latter class is too expensive an affair for Boise, consequently for La Grande too. With such a fact demonstrated so early this year, it resolves itself on La Grande and other eastern towns to drop down a peg and take class D ball.

There are members of the local team here this summer who would stand easy chances of playing on a professional club here next summer, a fact that will make fast ball doubly interesting.

With the unsuccessful attempt to put on good amateur ball this year, local fans have learned a lesson and next year will clamor for the better grade, and no doubt back it with good cash, namely class D ball. During the coming winter months, the identity of the league will be worked out.

NEW MATERIAL WILL BE ON SQUAD NEXT WEEK

With one week of 1909 football written on history's pages, prospects are assuming a hue that will be pleasing to the follower's of the great game in La Grande this year. Run as the squad is, on a basis where high standards in academic work is more necessary than proficiency on the gridiron objective parents are withdrawing their "nay nays" to the game. Knowing that the studies must be up to a high standard, the students are applying themselves lustily to their books that their chances with the moloskins may not be curtailed by a shortage in school brainmatter. With this condition in the schools it is no wonder that the splendid progress, so noticeable, is resitiant. The squad in its entirety this week is in better shape than it was at the end of the third week last year; fast, active, and well organized.

There is a mint of material, or rather will be after Monday, and a week from Monday. The men to come in next week are invariably heavy, heavier than the average seen in La Grande. The men are Milan of Joseph, a 190 pounder, Tom Williamson of this city, another 190 pounder, the two Beans, Heidenrich, all three familiar and efficient men. "Jimmie" Irwin, the crack quarter from Island City, Frank Millering, a lineman of this city, and one or two others.

When these men register for practice, about the appended squad will be on hand; Milan and Williamson, Heidenrich, Meyers, Cecil Bolton, and others will likely be the men from

whom the full and two half back positions will be chosen, unless Childers enters school which will create some difference. These men will have at the helm, likely, Irwin with Grady to chiefly help him. Irwin has the greater weight, while Grady is at present shouting signals in a manner that will make Irwin do his best.

The end positions are swarming with applicants. Virgil Bolton, the veteran end, Ex-Captain Meyers, Rice, Lottie, Crawley, George Currey and Ray Williams are out after the two positions on which so much depends in modern football.

At tackles, Captain Ingle seems to have a lease on his job for his bulk, experience and ability will help him hold the place to instill his men on the field. A. Bean, Millering and H. Stein, seems the most likely team mates.

At guards there is another big bunch of candidates. Heidenrich is coming back and he will vary his efforts between full and guard. Grout, Blystone and Bohenkamp are at present the men who have the necessary beef to place that responsible position. Bean is coming back to do the center rush stunt, where at he shown so brilliantly last year. "Slats" Woods of former fame will be opposite Bean for the pivotable point.

With this long list to choose from, competition will be so keen that the greatest good will result. Others getting in shape to cut considerable gures are Russell, Ralston and Paddock, after end and quarter positions.
