

Favorites with Well Dressed Men

We found out early in our business experience that there's no profit in selling a man his first suit if it turns out to be his last. We don't want floating trade.

The Root of Confidence is Value-Not Talk

That's the chief reason why we hand le Benjamin clothes and give them our strongest commendation and guaranty. We could easily buy clothes on which we could make a larger profit, but they wouldn't be Benjamin's and they could not give you the same sense of being well dressed as long as you want to wear them.

Our New Fall Styles

are here and well worthy of the attention of every man who values high class tailoring and peerless style.

A special telephone message from Union, states that a party of surveyors, supposed to belong to the North Bank road, are working in that vicinity today. The party of strangers arrived in Union yesterday and start; ed out today. It is generally believed the surveyors intend going over the right-of-way of the rumored road across the Blue Mountains to Wallac

Union boosters have secured reports from Walla Walla to the effect that the North Coast engineers gave completed surveys through that city and have pitched camp in the south side of the city looking toward the muountains. Putting two and two together they have figured out that the company is starting a road across the valley connecting the Walla Walla and the Grande Ronde.

in a telegram to certain citizens of nion, officials of the company stated that the North Coast was planning to build across the mountains and conmeet with the North West no. A tunnel and grades heros nountains are already r

Pig squeels have never been utilized but pig rooting has. While in the Salem state fair grounds Mr. P. A. Charlton secured an exhibit for the fair here which will be entirely new. It is a machine so constructed that the hogs grind their own food. The material to be ground is placed in a tank equipped with an outer revolving shell attached to knives. Temptation holes perforate the tank. The outside shield is winged like a fan and Mr. Hog bravely roots behind the fan to consume the food that is tempting him from the holes. He can't get the food but he pushes the wings along, thus cutting the material on the inside and as he finally roots by to another hole he finds ground food awaiting him. Several hogs can aid in grinding and in the devouring the ground foodstuff. The machine will be on exhibit here during fair week.
