Do your eyes trouble you when reading or studying after night? Do you have headaches or dizziness or irritated smarting or watering eyes or granulated lids? Do you get sick riding? All of these ailments are caused by the eyes being out of shape, too long or short (near or far sight), unevenness of the front or cornea, (Ostigmatism of the eyes, also by the effects of age, which causes our near point of vision to farther and farther away each year after ten years of age till finally we have to put on glasses to bring it back to a convenient distance.

If you have any of these troubles call on me, I will furnish glasses, the most up-to-date styles and best specially ground lenses at a price much less than the traveling opticians charge, and I give your eyes a double test by different methods with different instruments, one test proves the other.

Monarch MALLEABLE The Stay Satisfactory Range

SOME SPECIAL MONARCH FEATURES

- Polished Top. Needs no stove blacking.
- Duplex Draft. The only common-sense draft system in use.
- Complete Asbestos Lining. A triple wall at every point exposed to heat.

HOWARD HEATING STOVES

Howard wood and cold grates will burn either wood or coal

Have wood and coal grates and burn either wood or coal. No one expects to buy strictly high grade goods at the price of "cheap stuff," but some think that a high price guarantees high quality. Don't make this mistake in buying a range. Many ranges of ordinary construction are priced high or even higher than the incomparable Monarch.

WHEN YOU BUY A RANGE—

Find out what it is made of and how built! You have a right to know these things. Any man selling ranges who says, "Our range is a fuelsaver—a perfect baker," and stops here, casts a reflection on your intelligence. If these things are true of any range, there is a reason for it—a reason you can see and understand—a reason you have a right to know before buying.

We can show in a Monarch range exactly why it does what we claim. Come and see how the Malleable iron and steel plates are riveted solidly together, insuring a tight range for unlimited time. Let us explain how tight, permanent seams are possible only in ranges where Malleable iron is used. We can show you how tight, solid construction is necessary to everything you want most in your new range—prompt, sure service—long life—and fuel economy.
