

## Young Men: There's a Difference

between these Ederheimer-Stein clothes that are made especially for you and other kinds that are sometimes sold you.

Too bad you can't see these clothes alongside some of the makes you're shown when you go to buy a suit. But we don't have the ordinary kinds and you won't find garments of this make anywhere else.

Three and a quarter yards of cloth is usually supposed to be enough for a suit. Ederheimer, Stein & Co., put 3 3/4, sometimes more, into theirs.

It takes this much to make a coat roomy and full chested, to give it plenty of length and bottom sweep, to get the right hip effect to the trousers.

Not all clothes makers use enough goods to make clothes stylish. Ederheimer, Stein & Co., make clothes right and put in all the material that is needed.

And they're strictly Young Men's clothes. Made to keep you looking young.

#### Buying a Lawsuit.

Did you know that placing your reliance upon a warranty deed is simply bidding for a lawsuit?

In California this fact is so well understood that a warranty deed is looked upon with suspicion.

It is for this reason:

If the title is good it passes with the deed, and that is all there is to it—no need of a warranty. If bad, the adding of a warranty does not make it good.

A warranty is only a sort of a bet—a wager that you will have no trouble; but if you do, and finally lose out, I'll pay you your money back.

A better plan is to require an abstract. Don't go to law, consult J. R. Oliver.

## CALDWELL AFTER DEBATE

INTERSCHOLASTIC RELATIONS TO BE CONTINUED.

Local School Accepts Challenge From Idaho College.

That the talk of friendly relations with the College of Idaho growing out of the recent football game is genuine was demonstrated last evening when a letter was received challenging the local high school to a debate with that school. The tone of the letter proves that La Grande is highly considered by the people from the Gem state institution as ranking high in the interscholastic circles of the two states.

While extra debates will make hard work for the local speakers owing to the heavy schedule in the state league the challenge was accepted provided the Idaho institution would debate here as requested in the letter and also give them a return contest in Idaho.

## FIREMAN IN CLUTCHES

GRAND JURY RETURNS SERIOUS INDICTMENTS.

Fracas Saturday Night Results in a Gloomy Outlook for Fireman.

The grand jury made its first report just before noon today when two indictments were returned against Millard Nelson, a fireman on the O. R. & N., charging him with attempting to commit burglary from a dwelling in the day time, and to commit murder and rape, and also for indecent exposure.

The facts in the case seems to be that Nelson imbibed too freely of the liquor that takes away the senses and in an intoxicated condition went to the Zuber brick lodging house where a large number of people were dwelling and stripping off his clothes ran up and down the hall and attempted to force his way into several of the rooms. The reported facts in the case make the offense an exceedingly aggravated one and on which may go hard with the man.

It is understood that his comrades wanted to pay a fine for him or assist him in paying a fine but the affair could not be settled so easily. Aside from this case it was not known whether the grand jury has other cases under investigation or not. No subpoenas had been issued from the room at noon.

Later—Nelson plead guilty at a late hour this afternoon and was fined \$100.

## LEE VERSUS CARROLL

CIRCUIT COURT BACK TO CIVIL CASE AGAIN.

The circuit court was occupied today in the hearing of the ejectment suit brought by George A. Lee of North Powder against J. E. Carroll of North Powder. The suit involves the ownership of some lots in North Powder which were purchased at a tax sale in 1897.

The case was tried at the last session of court but a new trial was granted, the attorneys for Lee feeling that they had established a claim title to the land and that an error had been made when the case was decided in favor of Carroll. The case will go to the jury this afternoon.

## HOWARD HEATING STOVES

Howard wood and coal grates will burn either wood or coal

Have wood and coal grates and burn either wood or coal. No one expects to buy strictly high grade goods at the price of "cheap stuff," but some think that a high price guarantees high quality. Don't make this mistake in buying a range. Many ranges of ordinary construction are priced high or even higher than the incomparable Monarch.

#### WHEN YOU BUY A RANGE—

Find out what it is made of and how built! You have a right to know these things. Any man selling ranges who says, "Our range is a fuelsaver—a perfect baker," and stops here, casts a reflection on your intelligence. If these things are true of any range, there is a reason for it—a reason you can see and understand—a reason you have a right to know before buying.

We can show in a Monarch range exactly why it does what we claim. Come and see how the Malleable iron and steel plates are riveted solidly together, insuring a tight range for unlimited time. Let us explain how tight, permanent seams are possible only in ranges where Malleable iron is used. We can show you how tight, solid construction is necessary to everything you want most in your new range—prompt, sure service—long life—and fuel economy.
