## HOWARD HEATING STOVES

Howard wood and coal grates will burn either wood or coal

Have wood and coal grates burn either wood or coal. No one expects to get high grade goods at the price of "cheap stuff," but a high price guarantees high quality. Don't make a mistake in buying a range. Many ranges of ordinary quality are priced high or even higher than the incomparable Howard.

WHEN YOU BUY A RANGE— Find out what it is made of. You have a right to know these things. Any man selling ranges who says, "Our range is a fuel-saver—a perfect baker," and stops here, casts a reflection on your intelligence. If these things are true of any range, there is a reason for it—a reason you can see and understand—a reason you have a right to know before buying.

We can show in a Monarch range exactly why it does what we claim. Come and see how the Malleable iron and steel plates are riveted solidly together, insuring a tight range for unlimited time. Let us explain how tight, permanent seams are possible only in ranges where Malleable iron is used. We can show you how tight, solid construction is necessary to everything you want most in your new range—prompt, sure service—long life—and fuel economy.

## COMPLETE OFFICE WORK

### G. E. McCULLY ENDS HIS TASK IN RECEIVER'S OFFICE.

Clerk to Receiver Home From Portland on Office Duties.

Gay F. McCully, who, while the receivership of the Banker's and Tradesman's National Bank has been connected with the office as clerk to Receiver Nelson, has completed his work and the local office is now conducted entirely by the receiver. During the last few days, however, Mr. McCully has been connected with some research work for the district attorney, John McCourt, at Portland, and this morning returned from the metropolis where he had business in this connection.

While in Portland he heard no authoritative information as to when Scriber is to be arraigned, but did learn that the docket is well crowded with other matters, and it may not be until late in next month.

## CONTRACT IS SIGNED

AFTER SOME DELAY DOCUMENT IS SIGNED.

Completion of Macadamizing is Slated For Ninety Days Hence.

After wrestling for several days with the city officials John Mars today got the macadam contract in shape to suit him and signed up. The work will now be rushed forward and Adams avenue will not be an impassible bog this winter so that farmers will be compelled to leave their wagons outside the city limits and walk into town.

The contract calls for macadamizing of Adams avenue from Hemlock to Willow streets for the sum of \$6,960 and 25 cents per square yard for excavating or filling where the street is not on the established grade. The contract calls for the completion of the work in 90 days. The work will be started as soon as the machinery arrives from Portland.

The plan of work for the street include a six inch coating of macadam covering the entire width of the street to the depth of six inches. There is to be a five inch slope from the center to the sides of the street.

### CHURCH WEDDING POPULAR

PERFECTLY ARRANGED WEDDING DELIGHTFUL TO GUESTS.

One of the Largest Church Weddings in Years Held Last Night.

From a standpoint of attendance, extent of presents, and general delight, few weddings in recent years have excelled that of last evening when at the M. E. church at 5:50 o'clock Elenora Fritts and Walden G. DeLong were united in marriage before an audience that completely filled the church. The service swere short and simple but impressive. B. G. Fritts, the father of the bride gave his daughter away at the altar where Rev. J. D. Gillilan united the couple in holy wedlock, using the ring ceremony with all its effectiveness. Miss Ruth Bush played in her able manner during the time the guests were seated and during

the ceremony as well.

Later at the Fritz residence where the marriage reception was held a large number of friends were present to extend congratulations. Standing in the reception room replete with the same green and white style of decoration which had prevailed at the church where green and white were interwoven to form a pretty wedding archway and general decoration of fascinating nature, Mr. and Mrs. De Long received a long line of warm friends. Light refreshments consisting of fruit cocktail, with whipped cream, bride and groom's cake were served by Mrs. A. W. Nelson and Miss Ivy Long, assisted by Miss Olive Watson and Miss Pauline Newton who also received at the door.

Decorations at the home and the light refreshments were under the supervision and direct skillful management of Mrs. Grace Barrie. The dining room was beaming in mellow candle light and set off with carnations. The reception rooms were made beautiful with roses and smilax. So precise was the color scheme carried out, both at the church and in the home, that it was faultlessly beautiful.

Mr. DeLong, for many years a resident of this city and Mrs. De Long, a girl grown to womanhood in this city's midst, left last evening for their future home in Lakeview, Southern Oregon, and with them went unlimited wishes for good luck and happiness from a circle of friends which is not confined to this city alone but reaches out throughout the country. The

groom is a respected son of a pioneer family. The bride, one of the city's esteemed young ladies who scatters her smiles of good will before her everywhere, has made warm friends of all who know her, and to say that Mr. and Mrs. De Long will mold a circle of friends in the rapidly developing section of Oregon where they are to live, is not an idle forecast. Until the railroad reaches their location they will be scores of miles from a city.

### Greeks Meet in Boston.

Boston, Oct. 26.—"When Greeks meet Greek," was amply illustrated in Boston today, when thousands of Greeks from all over the United States assembled for the meeting of the Pan Hellenic Union, the purpose of which is to promote harmony in the ranks of all Greek-Americans, whether Athenians, Spartans, Cretans or Macedonians. Plans will be adopted for the union of all the Greeks in America who have heretofore been segregated by petty sectional divisions for which the Greeks have been noted throughout their history.
