WHEN YOU BUY

Find out what it is made of. You have a right to know these things. Any man selling ranges who says, "Our range is a fuelsaver—a perfect baker," and stops there, casts a reflection on your intelligence. If these things are true of any range, there is a reason for it—a reason you can see and understand—a reason you have a right to know before buying.

We can show in a Monarch range exactly why it does what we claim. Come and see how the Malleable Iron and steel plates are riveted solidly together, insuring a tight range for unlimited time. Let us explain how tight, permanent seams are possible only in ranges where Malleable Iron is used. We can show you how tight, solid construction is necessary to everything you want most in your new range—prompt, sure service—long life—and fuel economy.

TRUANCY ON THE DECLINE

Truancy is on the decline in this city according to Truant Officer Faulk. He has had but very few complaints this year, and, in fact can see a big improvement over other years. The stringent school attendance laws are evidently responsible in a large measure for the reformation of habitual lawbreakers in this district.

PICK TEAM ON MONDAY

FIRST INTER-SCHOOL DEBATE IS SET.

Orators Will Contest for Place on School Debate Team that Night.

On Monday evening the tryout for positions on the La Grande high school debating team for this year will be held at the high school. The speakers will line up on either side of the question and show their skill before the judges who will pick the six best to compose the two teams.

In connection with the work in debating some early work is being done by the orators at the high school with the view of giving an entertainment in the Steward opera house later in the season. This entertainment will be partially for the benefit of the students participating and also to let the people know what work the students are doing along these lines. Superintendent J. D. Stout and Miss Allen have the orators and debaters in hand.

STOMACH FEEL FINE.

Indigestion, Gas, Heartburn, and All Stomach Misery Vanishes.

Nothing will remain undigested or sour on your stomach if you will take

a little Diapepsin each morning. This powerful digestive and antacid, though as harmless and pleasant as candy will digest and prepare for assimilation into the blood all the food you can eat.

Eat what your stomach craves, with out the slightest fear of indigestion, or that you will be bothered with sour risings, belching, gas on stomach, heartburn, headaches from stomach, nausea, bad breath, water brash or a feeling like you had swallowed a lump of lead or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.

If you will get from your pharmacist a 50 cent case of Pape's Diapepsin you could always go to the table with a hearty appetite and your meals would taste good, because you would know there would be no indigestion or sleepless nights, nor headaches or stomach misery all the next day; and besides, you would not need laxatives or liver pills to keep your stomach and bowels clean and fresh.

Pape's Diapepsin can be obtained from your druggist and contains more than sufficient to thoroughly cure the worst case of indigestion or dyspepsia. There is nothing better for gas on the stomach or sour odors from the stomach or to cure a stomach headache.

You couldn't keep a handkerchief or more useful article in the house.

Typhoid Spines.

Everybody knows what a long series of miserable after-effects are apt to follow a spell of typhoid fever. Not

every one knows that this is owing to a chronic condition of weakness in the spinal column and local contractions of spinal ligaments and muscles. The osteopaths are the only physicians who seem to be aware of these conditions and who diagnose and treat the abnormalities as a distinct malady. Yet there are unmistakable evidences of the "typhoid spine" weeks and months after the patient has apparently recovered from the fever, and the evidences are as conspicuous to the trained diagnostician as the ribs in the patient's chest. Usually there is a weakness and sagging backwards in the lower part of the spine and there is an unmistakable "feel" to the diagnostician of contraction and congestion in ligaments and muscles. The affect of this condition is to create new weakness in the functions of the body or exaggerate old weakness already existent. Patients frequently run into pneumonia and tuberculosis from this physical handicap and there is likelihood of continued depletion and lowered vitality, making the patient liable to an attack by almost any form of disease. There is no treatment but osteopathy for the "typhoid spine" and this treatment adjust the disordered tissues and restores flagging health and vitality with the precision of scientific mechanics. Many persons with this sort of trouble who are changing climate for the weak lungs and other afflictions could stay at home and get well erasably pluck if they only got there spines adjusted.—Osteopathic Herald.
