**Heartburn, Gas, Dyspepsia and Other Stomach Misery Vanishes.**

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia, out of order stomach is merely a matter of how soon you begin taking Diapepsin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a reinforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take Diapepsin occasionally and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on the stomach of belching of undigested food, headache, dizziness or sick stomach and besides what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour-out of order stomach and dyspepsia are generally relieved five minutes after taking a little Diapepsin.

Go to your druggist and get a 50 cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know that there is not going to be any more bad nights and miserable days for you. They freshen you and make you feel that life's worth living.

**DULL EYES MADE BRIGHT.**

You are a patient? Your child is in school a certain number of hours each day, using the eyes constantly. Each year the lessons become harder, books are taken home the studies are continued in the evening, the eyes are being overtaxed, the delicate muscles are strained yet perhaps no thought is given to helping the eyes. I know that injury results from this neglect. We must realize it, if there is a cause for the eye strain, there must be a remedy, the remedy most naturally would be rest for the eyes; this rest can be obtained by wearing resting glasses. My advice to you is, come and get my advice, let me explain to you scientifically why resting glasses should be worn. I believe that parents use very poor judgement in not caring for their children's eyes, when the remedy is so simple and the cost is so slight.

**DR. M. P. MENDELSONN**
