

Young Men: Reason It Out

Let's get at the facts; and find out, once for all, why these are the best clothes a young man can buy.

The makers, Ederheimer-Stein & Co., specialize Young Men's; they don't make men's clothes at all.

There aren't many such makes. Not enough to go 'round and permit every store to have a live, genuine, special brand for young fellows only.

Your size in a man's suit doesn't make it right for you. There's a legion of details in the designing and tailoring that distinguish Young Men's from Men's clothes. Your kind won't suit your father; nor his kind please you.

Ederheimer, Stein & Co., make clothes for the Young Man's figure and the Young Man's taste. They make roomy, full chested coats that are stylish; suits and overcoats with a lot more swing and snap to them than a man wants.

It takes a third more cloth and a lot more skill to make clothes the Young Man's way. But when you buy them you're satisfied; you've got the best.

We're sensitive on the point of making a difference between Young Men and Men. We hope you are.

INSPECTOR ON WARPATH

WILL NO LONGER CONFINE PEN-
ALTY TO CONFISCATION.

Has Issued a Ukase that Bad Fruit
Must not be Sold.

During the past summer, according to Fruit Inspector Garritt Oldenburg, there has been repeated violations of the pure food law in this city and county in the way of selling diseased fruit, and after confiscating another batch this morning, he has issued a ukase that confiscation will not be resorted to hereafter, but that prosecution will commence. While there has been some violations at different times in the ranks of local merchants, he says, that those who peddle fruit are prone to sin in this respect and he will keep his eye out for such sales. If he finds another incident where defective fruit is sold, prosecution will follow at once.

While he has been reticent about confiscating bad fruit he has not let this stand in the way of enforcing the rule, but after three or four attempts to stop peddlers, and some of the merchants, too, from selling bad fruit, through confiscation, he has determined to use more stringent methods hereafter.

Mr. Wagner who was moved by the Dalton Purchase is now located at the place where Mr. Dalton opened up. In a day or two these three business places will be running under complete rearrangement, and in quarters that are better suited to their respective lines.

HOWARD HEATING STOVES

Howard wood and coal grates will burn
either wood or coal

Have wood and coal grates and burn either wood or coal! No one expects to get strictly high grade goods at the price of "cheap stuff," but some think that a high price guarantees high quality. Don't make a mistake in buying a range. Many ranges of ordinary construction are priced high or even higher than the incomparable Monarch.

WHEN YOU BUY A RANGE—
Find out what it is made of. You have a right to know these things. Any man selling ranges who says, "Our range is a fuel-saver—a perfect baker," and stops here, casts a reflection on your intelligence. If these things are true of any range, there is a reason for it—a reason you can see and understand—a reason you have a right to know before buying.

We can show in a Monarch range exactly why it does what we claim. Come and see how the Malleable iron and steel plates are riveted solidly together, insuring a tight range for unlimited time. Let us explain how tight, permanent seams are possible only in ranges where Malleable iron is used. We can show you how tight, solid construction is necessary to everything you want most in your new range—prompt, sure service—long life—and fuel economy.
