NEW DANCING CLUB

LA VIETTESSE IS TITLE OF NEW SOCIAL CLUB.

Will Give First of Three Parties on Next Friday Evening.

"La Viettesse" is the name of an elite dancing club organized last week and which will give the first of a series of three dances at the Elk's auditorium next Friday night. As the name signifies, it is the "older set" comprising married people entirely. There are about 35 in the club and there will be no invitations issued, though each member of the club has the privilege of inviting one to each party. The personnel of the club insures its popularity and as it is to be more private than any preceding club the parties will of course be the prominent social feature of the midwinter months.

SCHOOLS GET BRONZE MEDAL

STANDING JOKE PREVAILS WITH UNION COUNTY SCHOOLS.

Elgin and La Grande Each get Awards From Seattle Fair People

To send out bronze medals for superiority of exhibits in the educational display in the Oregon Building at the Seattle Fair last summer seems to be a joke. Following on the receipt in Elgin of the announcement that Elgin schools had been awarded a bronze medal for their display, comes one to Superintendent Stout of the local schools of the exact duplicate nature. In the letter to Mr. Stout, Pres. Wehrung, of the Oregon Commission asserts that La Grande's exhibit was so worthy as to be awarded a bronze medal, the exact wording of the acknowledgement to Elgin. Mr. Wehrung thanks the La Grande schools profusely for the exhibits and the interest shown. It is likely that Island City, Union and Cove will receive the same announcement in the near future. Just what the bronze medal is indicative of, seems to be unknown.

THE EYE IMPORTANT
The eye is one of the most important and delicate part of the body. "Sight is Priceless". Glasses should not be worn where no error of refraction exists, but where an error does exist they should be put on as soon as possible and worn constantly until the defect is cured. Wearing glasses once does not signify that they will always be worn. You can at any time (before the defect is cured) go back to the poorer vision if you so desire. The vision will not be poorer than it was before the glasses were worn, but will be more noticeable on account of having been accustomed to better vision. I have made a special study of the eyes and have been fitting glasses for fourteen years. Ask anyone that I have fitted for reference as to my ability, then give me a trial and be convinced. All work guaranteed.
