ELGIN MAN IS ACCUSED

GRAND JURY SAID RECENTLY HE DIDN'T SUPPORT FAMILY.

After Several Week's Time Man Returns and is "Pinched."

One of the true bills returned by the grand jury at its last session just came to light Saturday afternoon when Sheriff Childers picked up his man, McGee, on his return to the city on his first trip into the state since the grand jury adjourned. McGee is charged by the grand jury with the non-support of his wife and children. He was placed under \$200. bond and released.

At the time of the indictment of McGee, he was in Walla Walla and his wife and children were in Elgin where the woman was ill. Since that time, however, McGee has had his wife taken to Portland to a hospital and has had his children brought to his mother in this city. Not knowing that he had been accused he came home and purchased shoes and clothing for the children and was preparing to start them to school. It is not known who witnessed against the man but the indications are that he has been doing all that he could for his family.

BOTH WANT SEPARATION

HUSBAND AND WIFE HAVE THE SAME NOTION AT ONCE.

McCumber Wants a Divorce and Likewise Mrs. McCumber.

What promises to be one of the liveliest divorce suits ever fought out in this county is brewing at the present time between Orange McCumber and Sadie McCumber of Perry. A suit has been filed by McCumber in which he alleges in substance that his wife has abused and browbeaten him while he has been a model husband all the while. He further states that his wife has an adopted son, one Miles Bowker, who is exceedingly annoying to him and that she refuses to give him up.

From the reports it appears that the McCumber affair started in a boarding house romance a little over a year ago when the woman was running a boarding house in Union and had a little property in her possession. She became impressed, it seems, with McCumber owing to his eloquence and high standing in the church and first listened, then liked and at last succumbed to his entreaties and became his wife.

Shortly after the knot was tied the husband called his wife to his side and announced that the "old man was the boss," and that she must proceed accordingly. Then followed a resolve on the part of the "boss" that the little, half blind boy whose mother had given him to her on her death bed, must go from the home. These are some of the stories that are told. The facts will come out in the trial of the case.

HOWARD HEATING STOVES

Howard wood and coal grates will burn either wood or coal

Have wood and coal grates and burn either wood or coal. No one expects to get strictly high grade goods at the price of "cheap stuff," but some do that a high price guarantees high quality. Don't make a mistake in buying a range. Many ranges of ordinary construction are priced high or even higher than the incomparable Howard.

WHEN YOU BUY

Find out what it is made of. It's built! You have a right to know these things. Any man selling ranges who says, "Our range is a fuel-saver—a perfect baker," and stops there, casts a reflection on your intelligence. If these things are true of any range, there is a reason for it—a reason you can see and understand—a reason you have a right to know before buying.

We can show in a Monarch range exactly why it does what we claim. Come and see how the Malleable iron and steel plates are riveted solidly together, insuring a tight range for unlimited time. Let us explain how tight, permanent seams are possible only in ranges where Malleable iron is used. We can show you how tight, solid construction is necessary to everything you want most in your new range—prompt, sure service—long life—and fuel economy.
