RAPID WORK ON BUILDING

CORNER STONE FOR ADDITION TO HALL LAID TODAY.

Modern Offices for all Departments of City's Administration.

Figuratively speaking, the corner stone of the new city hall was laid today. It was not exactly a corner stone in the usual sense but it serves as a corner for the new edifice being added to the old building. The addition which will house the offices of the street superintendent and the water superintendent is now under construction.

The place now occupied by the water superintendent on Elm street will be enlarged for the chief of Police and policemen, making a modern police headquarters. The council room occupied by the city recorder will be enlarged considerably as well.
