SOCIETY.

An interesting meeting of the Park Club was held at the home of Mrs. Bousell of Fruitdale Wednesday evening with President Carroll in the chair. After responsive roll call, the club was highly entertained with the readings of Madame Beaudette: Coolidge and Carroll, in which each displayed art of worth.

The one minute talk on women's suffrage was equal to a grand speech. An able discussion followed, yet the question was left undecided.

The following were guests of honor: Mesdames Stilwell, Chandler and Misses Stilwell, Tatman and Beaudette.

The next session will be held at the home of Mrs. Clarke in Fruitdale. The hostess completed the merry program by serving a delicious two course luncheon who now has served club two times and each one most gladly.

The Epworth League held a social evening in the church parlors of the M. E. church. A large attendance enjoyed the evening immensely.

Engineers Moving Camp.

A party of railroad engineers and surveyors who have been camped at Pilot Rock junction for the past two weeks while making surveys and preparing for the proposed reduction of grades and the removal of curves moved their camp yesterday to Coe, where they will be stationed for a time. The men have been ready for several days but were prevented from moving so by the high water in the river which made it impossible to move their outfit across by wagon.—Union E. O.

to A. A. Christolm of Treadwell N. Y., now... His reason is well worth reading: "For along time I suffered from indigestion, torpid liver, constipation, nervousness and general debility," he writes. THE EYE IMPORTANT

The eyes is one of the most important and delicate parts of the body.

"Sight is Priceless." Glasses should not be worn where no error of refraction exists, but where an error does exist they should be put on as soon as possible and worn constantly until the defect is cured. Wearing glasses once does not signify that they will always be worn. You can at any time (before the defect is cured) go back to the poorer vision if you so desire. The vision will not be poorer than it was before the glasses were worn, but will be more noticeable on account of having been accustomed to better vision. I have made a special study of

the eyes and have been fitting glasses for fourteen years. Ask anyone that I have fitted for reference as to my ability, then give me a trial and be convinced. All work guaranteed.
