BERNARD DALY WHO APPEARS IN "SWEET INNISFALLEN" HERE.

Ask your pharmacist to show you the formula plainly printed on each 50 cent case of Pape's Diapepsin, then you will readily understand why this promptly cures indigestion and removes such symptoms as heartburn, a feeling like a lump of lead in the stomach, belching of gas and eructations of undigested food, water brash, nausea, headache, biliousness and many other bad symptoms, and besides you will not need laxatives to keep your stomach, liver and intestines clean and fresh.

If your stomach is sour and full of gas or your food doesn't digest and your meals don't seem to fit, why not get a 50 cent case from your druggist and make life worth living? Absolute relief from stomach misery and perfect digestion of anything you eat is sure to follow five minutes after, and besides one case is sufficient to cure a whole family of such trouble.

Surely a harmless, inexpensive preparation like Diapepsin, which will always, either in the daytime or at night relieve your stomach misery and digest your meals, is about as handy and valuable thing as you could have in the house.

THE EYE IMPORTANT

The eyes is one of the most important and delicate parts of the body. "Sight is Priceless." Glasses should not be worn where no error of refraction exists, but where an error does exist they should be put on as soon as possible and worn constantly until the defect is cured. Wearing glasses once does not signify that they will always be worn. You can at any time (before the defect is cured) go back to the poorer vision if you so desire. The vision will not be poorer than it was before the glasses were worn, but will be more noticeable on account of having been accustomed to better vision. I have made a special study of the eyes and have been fitting glasses for fourteen years. Ask anyone that I have fitted for reference as to my ability, then give me a trial and be convinced. All work guaranteed.
