

All Coffee Isn't to Blame

If coffee does you harm there is a cause—find out what it is—may be that it is not the right kind of coffee to start with, and again maybe that it was not ground properly. We pride ourselves in having the best coffee in town and when ground with our electric mill makes a fine cup of coffee. DON'T TAKE OUR WORD FOR IT—TEST IT FOR YOURSELF.

Incandescent Lamps Make Light Much Cheaper

Two and a half times the efficiency of the ordinary lamp hitherto in general use. The filament of a rare metal called Tungsten, which yields an intense brilliancy at low cost. In shape and size the bulb is just like any other electric incandescent lamp. Why not try a Tungsten lamp yourself? Get one of the 40-watts and use it somewhere in your house in place of one of your carbon lamps. Then observe the great difference. Note the clear white light, exactly twice as brilliant and costing you one-fifth less for electricity. General Electric Tungsten lamps are destined to displace all others, for both store and house lighting.
