# BOYS WIN; GIRLS LOSE

NEW RULES WORK FAVOR WITH GIRLS AT SUMMERVILLE.

The Boys Come Home With Easy Scalps Dangling at Their Belts.

La Grande High lost and won last Saturday night at Summerville when the boys' team defeated the Summerville boys' aggregation by the wide margin of 26 to 8, and the girls lost to the Summerville co-eds by the score of 10 to 6. Both games were interesting, and between the players an amicable feeling existed throughout the game. The La Grande girls suffered at the hands of the Summerville official because of over strict enforcement of the disgusting rules in girls' basketball this year. Some of the unreasonable rules now existing caused numerous fouls to be called against La Grande. Summerville got one field basket and threw eight free throws, while La Grande negotiated two field goals and four points from three throws. For La Grande, the players were: Lillian Baker, center; Celesta Love and Irma Geddes, forwards; Gladys Oesterling and Grace Grant, guards.

The boys from here won handily, playing easy rings around the Summerville players. Ceell Bolton and Fritz Lottes played guard positions and played it well notwithstanding that they are new men in high school basketball togs. Childers and Carpy and Hamilton at their respective positions were the scoring machines. The game was not unnecessarily rough and was very interesting to the spectators.

# MANY ARE SLEIGHING

CALL OF THE SNOW TOO MUM FOR A GREAT MANY.

City Streets Elegant But the Country Roads are not Near So Pleasant For Sleighing.

The call of the snow and the chiming of the sleigh bells was too much for scores of people yesterday and ivory rigs were at a great demand. The unusual excellent sleighing in the city was taken advantage of by a dozen parties, all of whom report heaps of pleasure. In the country the roads are either drifted badly or are swept clean by the high winds and it is anything but satisfactory to participate in cross country trips.

It is a fact however, that sleighing is a thing alright and all other modes of amusement are forgotten in the scramble for cutters and bobs.

# PREDMORE SITS UP

AGED PATIENT AT HOSPITAL IS GRADUALLY IMPROVING.

Though His One Hundred and Fourteen Years Old He is Full of Vigor and Recovering.

John Premore, the past centurian, aged 114, who has been at the Grande Ronde hospital for several days past being treated for injuries received in a recent fall, is able to sit up. It is apparent that he is on the highroad to recovery and doubtless will soon be a daily pedestrian on the streets of La Grande again. His wonderful vitality has been the admiration of all who came in contact with him during his short but severe illness.

# INDIGESTION VANISHES.

There would not be a case of indigestion here if the readers who are subject to stomach trouble know the tremendous anti-ferment and digestive virtues contained in Diapensin. This harmless preparation will digest a heavy meal without the slightest fuss or discomfort, and relieve the sourst acid stomach in five minutes, besides overcoming foul and nauseous odors from the breath.

Ask your pharmacist to show you the formula plainly printed on each 50 cent case of Pape's Diapensin, then you will readily understand why this promptly cures indigestion and removes such symptoms as heartburn, a feeling like a lump of lead in the stomach, belching of gas and eructations of undigested food, water brash, nausea, headache, biliousness and many other "bad symptoms," and besides you will not need fixatives to keep your stomach, liver and intestines clean and fresh.

If your stomach is sour and full of gas or your food doesn't digest and your meals don't seem to fit, why not get a 50 cent case from your druggist and make life worth living. It affords instant relief from stomach misery. Perfect digestion of anything you eat is sure to follow five minutes after, and besides one case is sufficient to cure a whole family of such trouble.

Surely a harmless, inexpensive preparation like Diapensin, which will always, either in the daytime or at night relieve your stomach misery and digest your meals, is about as handy and valuable thing as you could have in the house.

# THEEYE IMPORTANT

The eyes is one of the most important and delicate parts of the body. "Sight is Priceless." Glasses should not be worn where no error of refraction exists, but where an error does exist they should be put on as soon as possible and worn constantly until the defect is cured. Wearing glasses once does not signify that they will always be worn. You can at any time (before the defect is cured) go back

to the poorer vision if you so desire. The vision will not be poorer than it was before the glasses were worn, but will be more noticeable on account of having been accustomed to better vision. I have made a special study of the eyes and have been fitting glasses for fourteen years. Ask anyone that I have fitted for reference as to my ability, then give me a trial and be convinced. All work guaranteed.
