Now Ready for Business  
 Mew Stock of Absolutely High Grade Groceries--Absolutely Fresh Because the have not been in store 24 hours

## Both Departments

Are under the experienced management of Mr. Herbert Pattison, who has been in the grocery business in this city for the past 11 years and if close attention to business counts for anything he should know the wants of this community. Mr. Hermann Roesch has been proprietor of the Royal Bakery for the past two years and learned his trade in Philadelphia. Therefore we think we have a combined experience that places us in a position to cater to the wants of the Bakery and Grocery buying public. We solicit your trade, promising to give you the best quality of goods at the lowest prices. Our delivery wagon furnishes prompt service. BOTH PHONES

YOURS FOR BUSINESS,  
**Royal Grocery Bakery**

## MINERS HOLD CONVENTION

MORE SAFEGUARDS FOR MINERS IS THE KEYNOTE.

European protection for miners reduces death rate in their mines.

Indianapolis, Jan. 18.—President Lewis of the United Mine Workers of America in his annual report today declared that strikes as a measure to strengthen organized labor, have proved a failure. He urged that they be resorted to only in extreme cases. Lewis praised the joint conference methods of negotiating wage scales and advocated the creation of district in which uniform wages prevail. One of these districts, he declared, should include Colorado, Montana, Wyoming, Utah and Washington, while Canada be permitted to carry on its own wage negotiation without dictation or interference on the part of mine workers. Lewis condemned the injunctions aimed to hamper union men and union operations. He also advocated a government bureau of mines to deal with growing problems of the country's mining interests.

Indianapolis, Jan. 18.—With the recent terrible catastrophe in Illinois fresh in their memories, the members of the United States Mine Workers of America are today more

intent upon securing better safeguards for life and limb than upon an agitation of increase in wages. Experienced miners declare that a large majority of the deaths in mines are preventable and point to the comparatively small death rate in the European mines as proof of what may be accomplished towards protecting the lives of miners. While the government experts employed to investigate mine disasters have been of great assistance, officials of the Union declare that they are too few to cope with the situation.

Thomas L. Lewis will again head the coming year, having been re-elected over his opponent, William Green, of Coshocton, O., by a large majority.

## GRAND JURY ADJOURNED

SESSION SHORT BUT FRUITFUL IN ITS RESULTS.

May be called any time but not likely until March term.

The grand jury called in special session, adjourned this morning after a whirlwind session, commencing yesterday morning at 10 o'clock. The jury was not dismissed but merely adjourned and while it may be called at any time, it is doubtful if

another session will be ordered until the regular March term of the circuit court. The jurors applied themselves diligently to the work at hand and completed their investigations with the least possible expense to the county.

### For Monument at Gettysburg.

Richmond, Va., Jan. 18.—The Gettysburg Monument Commission's competition for models and designs for the proposed monument to Virginia troops will close today. Several prominent artists have submitted designs. The memorial is to be placed in what is known as Spangler Woods, the point from which Gen. Lee observed the memorable charge up Cemetery Ridge. The commission expects to spend about \$50,000 on the project.

Col. Thomas Smith, secretary of the commission, made the following announcement in regard to the monument:

"It is the determination of the Virginia commission that this memorial shall be a record of all the Virginia troops engaged in the battle of Gettysburg and it is desired that the design shall be of a form to accomplish this paramount purpose. The commission plans for a monument surmounted by an equestrian figure of General Robert E. Lee, but will consider plans without such equestrian figure, but effective in achieving the object of the intended trib-

### Alleged Magazine Trust

Washington, Jan. 18.—An alleged "magazine trust," which is declared to control the prices and distribution of a large number of popular publications, is now under investigation by the government.

The attention of the officials of the department of justice has been directed to the matter by the district attorney's office in Cleveland, O., and they have read the communication with a good deal of interest. The letter contains information furnished by W. H. Brett, public librarian of that city, who, it is said, was unable to obtain discounts on a large order of magazines, having been told that a periodical clearing house controlled prices.

### Emperor's Widow Violent

Brussels, Jan. 18.—Empress Marie Charlotte, sister of the late King Leopold and widow of the ill-fated Emperor Maximilian of Mexico, who has been mad for years, has of late been growing worse.

Recently she has had several violent attacks, in the course of which for the first time in years she uttered the name of Maximilian.

### Important Labor Convention.

Meriden, Conn., Jan. 18.—What President Donahue declares will be the most important labor convention ever held in the Wooden Nation State was called to order here this morning, being the twenty-fourth annual convention of the Connecticut Federation of Labor. Nearly all of the Unions of the state are represented. It is expected that the Gompers-Mitchell-Morrison case will be fully discussed and made the subject of ringing resolutions.

### Canada Building Railroads

Toronto, Jan. 18.—Figures for the past year show that the Dominion has passed the United States in the matter of railroad activities and the building of new lines is going on with unabated energy.

Canada's entire railroad mileage is now 233,000, which is one mile to every 300 inhabitants, as compared with one mile for every 381 inhabitants in the United States.

In 1867, in all Canada there were just 2278 miles of railroad track. There have been constructed in 1909 and are under construction or contract nearly twice as many miles of track as there were in Canada in 1868, or 4327 miles.

### Big Class.

Mrs. O. M. Corkin's class in the Union Sunday School has grown so large that it has been divided, Mrs. Corkin retaining the girls of from 13 to 16 years and Mrs. I. S. Hotch-

kiss taking the others. Friday of last week Mrs. Corkin gave a farewell sleighing party to the class, 25 of the 34 members partaking in the pleasure.—Enterprise News-Record.

New York, Jan. 18.—Clothing jobbers who have opened lines of suiting for the fall of 1910 state that few of the initial orders compare with those of last year. The trouble seems to be that clothiers are undecided as to what class of goods they want for next fall. At any rate, they are not making purchases in the usual way. Agents declare that it has been several seasons since the opening of fancy men's wear has shown so poor a demand.

### Cotton Mills for South.

Richmond, Va., Jan. 18.—Reports from all over the cotton belt indicate that 1910 will be a banner year for the textile milling industries of

the South. Cotton manufacturers will doubtless make a great stride during the coming twelve months, and before many years, it is predicted that New England's vaunted supremacy in the textile line will be in danger.

### Trotting Men Meet.

Lexington, Ky., Jan. 18.—Officers of the Kentucky Trotting Horse Breeders' Association in Lexington today, declare that the past season has been an exceptionally prosperous one for the association, and that the prospects are good for an even better season this year. Secretary Wilson has been busy for the last month with the future stakes, which are attracting much attention.

WANTED.—A girl to do general housework. Inquire 1806 2nd Street. 1-16-19.
