ernment land. The government's case against Stoddard dates back to June, 1901, when he was found guilty of the charge, says the Portland Journal.

More than 10 years ago Stoddard took up a timber claim on what is now a part of the townsite of Sumpter, Or., cutting trees valued at \$30 to clear a lot for his hut. Later, Stoddard relinquished title to the land as a timber claim and took it up as a mining claim. When special agents of the general land office declared the property contained no minerals, Stoddard lost title to the claim. Beamer, who took up the claim under the timber and stone act, and later sold it to Stoddard, was the means of bringing the action against Stoddard, acting as the complaining witness. When convicted, Stoddard filed motion for a new trial on the advice of Judge Ballinger. By a peculiar chain of circumstances the case did not come to trial for the second time. Stoddard finally decided to submit to the fine and appeared in court today.

JUDGE SLOW IN COMING

AWARD OF PRIZES AT POULTRY SHOW DELAYED.

Walla Walla expert fails to put in his appearance yet

"If this is the beginning what may we expect in the years to come?" Thus remarked a lover of fine birds after making the rounds of the many pens. "I have visited no less than half a dozen shows on the coast, including the large cities and have never seen any finer specimens than you have here. Of course I have seen more birds on exhibit, but there is some as pure stock here as can be found anywhere--you remember this when Mr. Breed arrives and awards his decisions."

This afternoon several new pens were expected to arrive, which will include ducks and turkeys. The attendance yesterday, owing to the weather, was nothing extra, however in the evening the hall was filled all the while.

The attendance today has been very satisfactory and a big crowd is anticipated this evening. If you have never given a chicken any credit before in your life, one visit will increase your respect for one of the largest money producing industries

in the land. Wheat is not in it with poultry in the United States.

This is the beginning of the annual exhibition that will draw people from all parts of the country and will be looked forward to with pleasure by those who are interested in the development of the county.

Get the habit and arrange to attend at least once during the show. The attendants are courteous and painstaking in showing you around and explaining the names of the various breeds as you pass from pen to pen.

Owing to the severity of the weather yesterday the management of the Grande Ronde Poultry Show have decided to hold the show until Friday evening, January 21. A great number of good birds are now on exhibit and it is well worth the price of admission to attend. It is the duty of every citizen of La Grande to attend this exhibit. The farmers have made it a success by bringing in their birds, so it is the duty of the people of La Grande to make it a success financially.
