LITTLE DELAY SAY TRAINMEN

ULTIMATUM TO STRIKE AT ANY TIME REACHED.

Written permission to call strike in hands of leaders.

Chicago, Feb. 10.—Armed with the written authorization to call a strike of the railroad trainmen at a moment's notice officials of the Brotherhood of Railway Trainmen today submitted the ultimatum to the officials of the 18 railroads centered at Chicago. The action was taken at the instance of the yardmen here, who are determined not to temporize, believing every moment's delay in the settlement of the question is more costly to the Unions than to the railroads.

Switchmen are overwhelmingly in favor of striking.

START ELABORATE BUILDING REPAIRS

BOHNENKAMP STRUCTURE BEING COMPLETELY CHANGED

Will require about three months to complete plans.

Additions and large improvements that represent an outlay of several thousand have commenced on the walls of the entire building to a full three stories is the principal feature of the exterior changes and on

the inside each floor will be made into a distinct department, with elevators on each floor. The work will occupy about three months in the completion.

Asleep at his post.

Asleep on duty with an alarm clock set to awaken him in time for the regular hourly report, Patrolman Everet has introduced a novel method of protecting property interests. But Everet's system does not work well. His alarm clock, set to arouse him before the time set to report, did not sound the alarm when Sergeant Keller approached the sleeping officer.—Portland exchange.

THE EYE IMPORTANT

The eye is one of the most important and delicate parts of the body. "Sight is Priceless". Glasses should not be worn where no error of refraction exists, but where an error does exist they should be put on as soon as possible and worn constantly until the defect is cured. Wearing glasses once does not signify that they will always be worn. You can at any time (before the defect is cured) go back to the poorer vision if you so desire. The vision will not be poorer than it was before the glasses were worn, but will be more noticeable on account of having been accustomed to better vision. I have made a special study of the eyes and have been fitting glasses for fourteen years. Ask anyone who I have fitted for glasses as to their ability, then give me a trial and you will be convinced. All work guaranteed.
