### KANSAS CITY SOCIETY SCANDAL HUSHED UP—WOMAN IN FRAGS WAS RETURNED HOME

### SUIT FOR DIVORCE WILL BE INSTITUTED AT ONCE

Banker who went auto riding with Cudaby's wife will be marked for life from knife gashes sustained at hands of infuriated packer—Wife reticent but says it was all over an innocent automobile ride.

Kansas City, March 8.—Jere Lillis, the banker will wear deep scars from the knife of John P. Cudaby, all his life. Mrs. Cudaby will probably return to the home of her parents at once.

Action for separation and a legal struggle for the possession of the Cudaby children is expected today. will be the only publicly apparent apparent results of the sensational fight at the Cudaby home Sunday morning.

It is not definitely known whether Cudaby will be prosecuted for the attack on Lillis. On all sides efforts to "hush up" the affair are very apparent. Cudaby remained silent today and refused to talk.

He has taken up his residence at the Coates house.

Mrs. Cudaby has talked but little but has affirmed that the cause of the trouble was an innocent automobile ride Saturday night.

## SEATTLE WIDE OPEN

Seattle, March 8.—Betting of four to one that H. C. Gill will carry every ward in the city and win by a majority of 7000, shows the confidence of the Republican party in their candidate for mayor in today's election. The fight is squarely on the issue of "Wide Open Town."

Seattle, March 8.—Indications point to the election of Hiram C. Gill, Republican, as mayor of Seattle in today's municipal contest. The success of Gill will mean a "wide open" town, and will be taken as an expression of displeasure from the voters for the recent period of "restriction."

The fact that in the primaries the Republicans cast 13,438 votes, giving Gill a majority of over 3,000 over his opponent, A. V. Bouillon, while the Democrats only cast 2,746 votes, is taken by many politicians to forecast Gill's election. William Hickman Moore was nominated as his opponent by the Democrats.

Gill went before the people with a flat declaration for an open town, assuring that certain restrictions that have been enforced would be immediately removed if he was elected.

### Placed the Notices.

### Preparing For Warrant Call.

County Treasurer John Frawley is figuring out the interest and on March 14th expects to issue a call for the payment of \$30,000 worth of county warrants.

These warrants have only run about eight months, which goes to show that steadily and rapidly our indebtedness is being wiped out. The interest account at present only means about 5 per cent, whereas several years ago it was 48 per cent on the dollar and as at present it requires \$1.05 to pay off a dollar's indebtedness whereas there was a time when it required \$1.48 to pay off a dollar. Those were the dark days of county finance.

The car containing the explosive arrived yesterday. Last evening the yard officials telephoned Clay the startling news that the dynamite had disappeared.

Giant powder is already booming in the mountains where laborers for the Northern Pacific are blasting away the ice-sid snow. The tracks are expected to be clear by Thursday.

### Plan Model Road in Iowa

Des Moines, March 8.—Plans for a continuous highway across the state from Davonport to Council Bluffs were considered in an enthusiastic manner by delegates from fifteen

counties assembled in a caucus here today. If the project is carried out, as it now appears certain, each township along the route will improve and keep in repair its own link in the long chain, thus entailing little expense. It is urged that the fame of such a road would spread throughout the nation and would not only give Iowa a vast amount of advertising, but would also serve as an example for other states to follow. The promoters of the scheme expect that the idea will be taken up by neighboring states and that eventually the Iowa road will become a part of a great national highway extending from the Atlantic to the Pacific.

It is pointed out that Iowa is on the direct path from the east to the west. Tens of thousands of automobile cross the state every season. The great natural route lies across the state from river to river, from Davonport to Council Bluffs. These roads today are the great American highway to the automobilists. All over the nation it is known that a single rain will put travelling out of the question. The tourist from the start read that as may be caught within the confines of the state by a storm.

With a good road route across the state this phase of the situation would be entirely eliminated and the praise of Iowa and her 300-mile road would be heard from one end of the nation to the other.

## JOHNSON IS A LIVE WIRE

### A REST DAY BUT HE RESTS NOT DURING PREPARATION FOR TONIGHT'S BUSINESS AGAIN

### PRAYER MEETINGS AGAIN ANNOUNCED FOR WEDNESDAY

Cruce at Baptist church is one of the many details that make pleasant the meetings—Dogs not a part of attendance—Already many are coming from the country to attend the meetings here.

### (Contributed.)

Although it was a beautiful spring day, balmy air, clear skies, and soft southerly breeze caressing the cheek of the evil and the good, no grass grew; at least none grew in La Grande, under the feet of Evangelist Robert E. Johnson yesterday. He "calls" Monday his rest day. Well, he may call it so, but that does not make it so. He did not rest much. If the "elite East" were filled with such live wires as he, it would soon catch up with the wide-awake West, and amount to more than it does. From early morning until late at night that busy bundle of energy was busy with his lieutenants, the pastors and officers of the churches, digging trenches, laying out mines and placing traps for the main issues of the campaign which has already begun to wax warm. "Sampin's guine to drap, sure" and the fellow that's not watching out will discover it.

Everything is in preparation for the advance of all the lines and as this (Tuesday) evening is to be one of the most important of the whole series of meetings, none will want to miss it. The perfected choir attended by the two Eilers pianos and expert performers and conducted by that master of orchestras, Prof. Gray, is now ready to excel even the splendid achievement of last Sunday night, when under the wand of this musical magician that hundred men and women sang, hummed, whistled or were silent and his motion. No such musical combination and contingent ever accomplished a religious meeting here.

The Observer will have a special reporter at every meeting and will keep the public posted on all the doctor's orders.
