SILENT AS THE FOOT OF TIME

**T**HE whole world is fast coming to know high-class car. America, France, England, Germany, Russia, Spain,---each contributes its share of praise for Mitchell beauty and construction---and patronage follows praise.

**T**HERE is not a cheap feature about the Mitchell, except its price, and it has everything that makes an Automobile admired and desired.

Its is low-cost, because it is not priced on the hysterical basis, and because our facilities are so complete that we can keep down the cost of construction to where it belongs.

It is high-class because it is made of the same high-class materials that the world's highest priced cars are made of, and quality is never sacrificed for quantity. It is beautifully designed, finished and equipped. It is rakish smart, refined, solid, comfortable and luxurious. It is silent in its running---absolutely silent---and it will last and serve you faithfully for years to come.

What more can there be to an automobile, and why should any car on earth sell for more money?

## ONE FUGITIVE IS CAUGHT

One of the seven prisoners who made the successful escape last night break for liberty Saturday afternoon, is again behind the bars while Sheriff Taylor is in hot pursuit of two who are mounted on stolen horses and are riding into the mountains, says the Pandemon E. O.

A third man was with these two but had to drop out of the race and abandon his mount because the animal gave out. Not the slightest trace has so far been obtained of the route taken by the other three.

Bulley insists that he separated from the others as soon as they escaped from the jail and that he has seen nothing of any of them since. He says he first went north of town, then doubled back south of the city and finally took to the railroad, landing at Umatilla, where he was picked up by Deputy Wilson. He refused to tell who the confederate was who passed in the saw.

It was understood, however that Sheriff Taylor is well satisfied in his own mind as to the identity of the person whom he deems the escape possible and that an arrest will be made as soon as the escaped prisoners are recaptured.

The break had evidently been well planned beforehand and was executed without a single miscue. Remarkable good fortune was with the prisoners at every move.

As it was not considered that any of the prisoners in the jail were desperate characters, they were all given the liberty of the jail corridor during the day. Selecting a time when the deputies were all busy in caring for the Saturday rush of taxpayers two bars were sawed from a window in the jail farthest from the office. This left an opening about a foot square through which the men crawled one at a time, and dropped to the future by Dr. Henry Waldo Coe.

The aperture was small and at least one of the escapees was large and how all seven of them managed to crawl through the hole without being seen by anyone on the two streets which were in full view, is a mystery. At least 30 minutes or an hour must have been consumed in getting through the window and it is estimated that the last one was through before 5 o'clock.

It was nearly six o'clock when Sheriff Taylor entered the jail to lock the prisoners in their cells for the night and found that all his birds but four had flown. One of those remaining was Thomas Lair with a broken collarbone. Anthony Bloom, aged 65 years; A. C. Smith who had been arrested the day before and had not been taken into the confidence of the other prisoners and Louis Mettler, the Ukiah boy who is charged with breaking his parole also remained.

### Vanderbult in France

Paris, March 5.—William K. Vanderbult was again on hand when the French racing season was opened today, and was one of the most prominent figures in the stand. It is said the American multi-millionaire contemplates the same extensive campaign for his French string that he has followed in recent years. For five successive years Mr. Vanderbult has headed the list of winning owners in France, and last year his winnings were about \$150,000. For the coming season he has a stable of 50 horses in training, in the care of William Duke. The stable has for its first jockey, Frank O'Neil, who a few seasons ago rode with a good measure of success over the American courses. The second stable jockey is I. W. Mitchell.

### Increase Differential

Washington, March 15.—Effective today by order of the Interstate Commerce Commission, the differential first class tariff on railroad shipments between Chicago and New York is increased from 69 cents to 75 cents, it having been demonstrated to the satisfaction of the Commission that under the reduced differentials the roads benefited were receiving more than their due proportion of business over those enforcing the standard tariff.

Mother Knows

## "Olympic Flour"

makes good pastry, too."  
—Mother.

The plump, hard grains, selected from the entire Northwestern wheat crop and thoroughly cleaned and scoured—just fill the bill for a perfect pastry flour—besides it is the flour for good bread and cakes and biscuits. Olympic Flour—always the same, always clean, pure, wholesome and nutritious—is an aid to rather than a test of a young housewife's ability. If your grocer can't supply you we'll tell you who can—but insist upon Olympic—demand it—"there isn't any just as good."
