truly describes the brilliancy of this new Tungsten lamp for electric light. With the same amount of electric current its wire filament radiates from two to three times as much light as the ordinary carbon incandescent.

Use Tungsten Lamps in Your Home

They will cut your light bill in two or, double your illumination without extra cost. Try a G. E. 40-watt lamp at first. It consumes one-fifth less electric current and is twice as brilliant as the 16 candle power carbon lamp you now use.

YOU BIBLE READERS

Find the origin of "All Fools Day" in Matt. 29:12

Among the many explanations of the origin of the modern observance of All Fools Day is that it dates from the acceptance of the Gregorian calendar in France in 1582. Prior to that time the year began on March 25th, and the feasting and merry-making lasted until April 1st, when gifts were exchanged among friends and kinsfolks. Some authorities however find the origin of the custom in Matt. 29:2.

NEW TOWNS WANT BERTH

Kennewick, Pasco and Walla Walla have suddenly jumped into the professional baseball clouds again and last night informed Grant Lincoln here that they want to form a four-club league with Baker City, La Grande, Walla Walla and Pasco and Kennewick combined. Enterprise, this morning threw up the sponge in trying to foster Class C baseball here and that Walla Walla and her sister towns "want in" has again revived the possibilities. It is now up to Baker City to say the word, and a conference of all these towns will be held in La Grande.
