Washington Goes Dry.

Watsburg, Wash., April 4.—This city voted "dry" today by a majority of 32 in one of the most spirited elections ever held. The "dry" forces were claiming the victory by a much larger majority than they rolled up. It is thought the result of the election in Dayton, which showed material gains for the "wets", influenced the result today.

The total vote was 262 of which the "dry" had 147 and the "wets" 115. All day the two factions worked hard against one another and nearly every voter in the city cast a ballot. The election was held in order to come under the new local option law.

HILL SURVEYORS ABOUT TO SELECT MOUNTAIN ROUTE

WELL SUBSTANTIATED RUMORS SAY CREW WILL COMMENCE WORK WITHIN A FEW DAYS TO RUN RAILROAD LINE OVER BLUE MOUNTAINS

Emissaries of J. J. Hill in the shape of engineers and surveyors will, immediately, commence the selection of a proposed route over the Blue Mountains from some point near Pendleton, tapping the Grande Ronde valley at a point somewhere between Summerville and Elgin. The statement is based on authority that may, of course, be faulty, but today appears to be without danger of dispute. The source of the news is at present a secret, but that a crew of men is coming here under the direction of Hill's lieutenants to inspect the several discussed and possible routes over the Blue Mountains, seems authoritative. In fact, it is rumored in the city that the men are already here and tomorrow will go to the

North end of the county to commence the preliminary surveys from this end, and it is not likely that surveyors could cross the Blue Mountains at this time on account of the snow.

Mystery seems to envelope the proceedings of these advance men. It was generally reported, from sources that cannot be traced, that the crew is already in La Grande. Another report current is that the surveyors will not be in the valley until early next week.

In any event, regardless of the exact date, the very near future will see the selection of a route that will serve as an outlet to competitive lines and no doubt some steps taken toward actual construction.

ACCUSED ON THE STAND.

Watseka, Ill., April 6.—Dr. William R. Miller, accused of murdering Barker Saylor took the stand in the trial today and maintained that he shot the banker only after he, infuriated at the suspicion of his wife's infidelity, attacked him with a hatchet. Miller was cross-examined exhaustively, but stuck to his story. Mrs. Saylor, accused with Miller, was later called to the stand.

It was developed today from Miller's testimony that Mrs. Saylor stood for some time near the bleeding body of her husband and showed little emotion at his death. Mrs. Saylor the prosecution alleges, dressed the trivial wounds Miller sustained while her husband was dying nearby. She is also said to have served coffee for Miller and her father after the shooting.

The prosecution today announced that it held the signed statement of Charles Grice, a farmer, who said that Miller told him on the day after the shooting that Saylor did not attack him.

Today, detectives found two dynamite bombs in a shed near the bank believed to have been left by the bandits, who intended to use them in blowing the safe. The officials say the loss will not exceed \$400.

WASHINGTON, APRIL 6.—"Roosevelt has met his Waterloo," says Father Eugene Hannon, pastor of St. Martin Catholic church, have created a sensation here today.

"Like the bull in the china shop," said Father Hannon, "He attempted to jump into the Vatican and override the etiquette of the Most August court ruling over Rome. The Court of Rome is not given to exploiting of Rome is not given to assisting political exploitation and surely will let Roosevelt know it in no uncertain manner.

Father Hannon concluded by saying "Roosevelt in his usual manner now comes forth and denounces the Methodist minister who came to his defense. Why? So that the American Catholics will be appeased. But this will not suffice Roosevelt, the greatest press agent the world has ever seen. He can expect little from the Catholics in this country in the future."

Vatican is the Loser.

London, April 6.—The London Telegraph's Rome correspondent in a cable this morning concerning the Vatican-Roosevelt incident says: "The affair has added strength to the campaign against the Vatican when the Holy See needs all the forces it can muster to resist the enemies' onslaughts. The general opinion is that the reputation of Cardinal Merry Del Val as a diplomat is shattered."

WHY OUR BUSINESS GROWS

That our business is constantly growing is obvious to all our customers. However the fact that it grows is of less importance than the cause of this growth. Stores don't grow by chance; growth is always the operation of some vital principle, and in this case the vital principle is quality—quality of goods, quality of service.

For 25 years this store has been doing business on the basis of quality—each year showing an increase over the previous one; each year adding new customers and continuing to hold the old ones. All of them have stayed because they found it paid to trade here. They find here a larger stock, a better assortment, better goods than are to be obtained elsewhere for the money and better service throughout.
