MOTOR FOR UNION

Central Railroad of Oregon will put on motor car soon.

Superintendent England of the Central informs the Republican that his road will have a motor car capable of carrying 10 passengers, about the first of the month. When this car arrives, travel over the line will be materially facilitated. Four trips per day will be made to Cove, and passengers will be pulled up from the Junction in a hurry. No more tiresome waits. This will be good news to the patrons of the road. A little later, Mr. England says, the road will have a much larger motor car and will be in better shape than ever to handle the business of the road.

The time to plant a new orchard or add to your present one is now—this spring. Remember this—an orchard planted this spring will be a year nearer bearing and a year nearer profit than an orchard planted next spring. Why not gain that year and that profit? The year thus saved may be the year when you would harvest your first big money-earning crop—the year when fruit prices scored and turned your orchard into a veritable gold mine.

Planting season is not governed by date, season or climatic conditions but by the condition of the stock to be planted. So long as the stock is dormant, it will plant successfully weeks after your spring has opened.

These Idaho trees above listed are dormant—they will plant successfully and make you a model orchard and pay you profits. Every tree is a true Stark Tree—the only standard of tree you can afford to plant. You must order immediately. Send your order and remittance either to.
