"Cousin Kate" Coming.

The strongest play that Hubert Henry Davies, one of the heavy-weights in the field of literature, ever wrote was "Cousin Kate," which he wrote especially for Ethel Barrymore, and which aided her greatly in making the tremendous hit she did in London and New York.

In fact, there is more good material in one act of this play than in a great many of the later successes combined. It is the author's finest achievement in dialogue, characterization, repartee and in development.

The author has realized that ideas as well as emotions, have value, and has introduced a vein of comedy that runs the gamut, together with a chance for heavy emotion and noble self-sacrifice. He has not overlooked a single point, and the play is a constant delight.

But even if "Cousin Kate" had not proved itself, the appearance of Miss Jeanne Russell in the title role, insures its value when presented at the Steward on next Monday, April 26th.

Roosevelt Picture Coming.

It is a well known fact that the president is now being received by the crowned heads of Europe on his return to America, and he himself makes the statement that the expedition was the most successful of its kind the world has ever known. Through the magnetic personality of Cherry Kearton of London, who followed Col. Roosevelt through all his African adventures, he secured the cooperation of Theodore Roosevelt af-

ter weeks of strenuous efforts and the results of Kearton's scientific photographic efforts are embraced in these series of motion pictures of Roosevelt in Africa, which will be exhibited at the Star Theatre, commencing Thursday, April 28th. It is unquestionably a fact that the announcement of the coming exhibition of these pictures has created a greater stir in the world than that concerning any other motion pictures which has ever been manufactured, and anticipating a wide interest in the City of La Grande, the management of the Star Theatre has decided to run the pictures, commencing at 1 o'clock in the afternoon, and until 10:30 p. m., continuously every hour for one day only.
