

Have You Seen our Beautiful LINE OF PIANOS

We have just the piano you have been looking for at a price you can afford. A piano you would pay elsewhere \$450. We sell it to you for \$350; and a piano you would pay elsewhere \$400, we sell for \$300.

A Home Without a Piano is Like a Flower Garden Without Flowers

Why deprive your family of the pleasure of music and your children of a musical education when you can get a piano from the Rinehart-Little Piano Co. at the lowest price ever heard of before for high grade pianos.

Don't wait until your family has grown up, but buy now.

Our pianos are fully guaranteed to last a lifetime with any care at all.

Each piano has a written guarantee by the factory. We have sold a number of pianos to the best music critics in the county and each sale is the best add we have of the quality of our pianos.

People that have waited for years to get the piano that satisfied them in tone have bought our pianos.

Call and let us prove to you we have the best values you ever saw in a piano. We can refer you to many in eastern Oregon and Union county who have bought and are more than pleased.

Have you seen the latest in player pianos

It is the talk of Union county and eastern Oregon, as the best and most wonderful player piano made. We defy the most skilled musicians to tell its playing from human hand. It has all latest attachments. In short it is a complete player piano.

Come and hear it.

We have sold a number in the county.

We have a large stock of music on hand.

WOODBELLS TO MEET

FOUR DAYS IN JUNE SET ASIDE FOR THAT PURPOSE.

Interesting Program Being Prepared for Meeting of Popular Clan.

Four days of family reunion has been announced for the Woodell family, a clan of highly respected citizens of Grande Ronde valley. In number of members it ranks next to the Rineharts. Much of the details in connection with the reunion, have already been attended to. The celebration will last four days commencing on the 23 and continuing until the 26 of June. It will be held at the Shafer grove.

Friday will be set aside for the election of officers and other business matters, while a ball game will be the chief attraction on Saturday. Sunday has been set aside as public day when all who wish to meet their Woodell friends will be welcome. Religious services will be held on Sunday by the Reverend W. H. Gibson of this city.

THE RED DAB OF DEATH.

Tragic Maroon on the Steel Skeleton of the Skyscraper.

"See that big blob of scarlet paint?" said the engineer as he pointed to a girder high up in the skeleton of the new skyscraper. "That red spot means that one of the men working on the building was killed by the girder sweeping him off the structure while being put in position."

The visitor craned his neck and saw a rough patch of vermilion paint on one of the floor girders up on the sixteenth story. "It must be a dangerous life," he said to his engineering friend.

"Yes. Those men up there are working under the chance of instant death at any moment. They'll walk along the topmost girder, 300 feet above the sidewalk—a little path of slippery iron five inches wide—and will lean outward against the wind. You or I couldn't do it for a second."

"Now and again there's an accident. A chap slips. A worker gets hit by a swinging girder and flung off. Another man takes an incautious step and falls off into eternity. The men working near by do their best to get at him if he manages to grab the girder he's falling from, and there are some swift

and reckless races with death to get to their comrade at any cost in the five or ten seconds allowed them while strong fingers are sliding away from a slippery beam flange. If the worst happens and the man falls in spite of their efforts, then they apply the dab of red paint, and the ironworkers call it a day. They don't speak much of the man that is gone, as a rule. He's soon forgotten. The men consider it fate.

"You'd think, by the way," went on the engineer, "that the higher up these men worked the more carefully they'd become. They aren't particularly careful, but they do guard against the hypnotism of height. One of the men working on a high girder gets paralyzed now and again by a sudden fear that holds him motionless and still on his iron beam."

"The men look out for this sort of thing, and the remedy is to distract his attention by a rough blow on the back or in some cases by exciting him to anger through any means in their power. When the man gets fighting mad he is freed from the paralysis of terror or whatever you may choose to call it. He gets up from his girder to make a rush for the other fellow to do him up, and the moment he is safe he is restrained by the other men."

"Whenever you see a skyscraper framework," concluded the engineer, "each dab of scarlet paint on the iron means that some man has come to his death. Every skyscraper and every bridge is the monument to some little group of unknown workers, laboring at dizzy heights and dallying with sudden death as part of their day's work."

LECTURE

At the Christian Church, TUESDAY, MAY 17.

Love, Courtship and Marriage, how to be on good terms with your Mother-in-Law.

Mrs. Jean Morris Ellis, Lecturer.
Admission 25 and 15 cents.

Complete equipment for resetting and repairing rubber buggy tires.

A. V. OLIVER,

Corner Greenwood and Jefferson

TRUTH No. 6.

Oil is now California's biggest industry—bigger than gold. Oil is an extremely profitable business when handled as a business proposition. The demand for oil is greater than the supply. The demand grows greater daily. It is the only fuel now used on the Pacific Coast by railroads, steamships, factories and office buildings. Japan is using millions of barrels of oil on her warships. The United States will unquestionably use oil in the Navy, which will mean millions more. Oil is cheaper than the cheapest coal. It is the safest, most economical, cleanest and the easiest fuel to handle. Oil will soon be the fuel of the world.

The California Oil Fields are now by far the biggest producers of fuel oil in the world. The supply is apparently inexhaustible. Three pipe lines, costing about \$10,000,000 each, pump oil to tide-water, where it is transported to all parts of the world. A pipe line, costing \$25,000,000 is about to be built into Arizona, to supply the smelters with cheap fuel. The price of oil at the well is now around 60 c a barrel—it will go up. California oil stock is the most profitable as well as safest investment ever offered the public, providing the oil companies are good, substantial companies.

California oil presents an opportunity to the capitalist and wage-earner alike. Bankers, business men, clerks, laborers, both men and women, are investing—whether a million or a few dollars, they are investing for big dividends and immense returns—and they are getting them NOW. Many millionaires have been made from California oil in the past ten years. Millionaires are now being made month after month. The small investor may not be able to make a million dollars, but he can make more money safely and honestly from a few dollars than he can from a year's toil.

Now is the time for you to invest. Buy California National Crude Oil Company's stock at 40c per share. Fill out the attached blank and forward your subscription at once.
