SCRIBER CASE SLOW.

(Continued from Page One.)

La Grande bank because Scriber took large sums from the Farmers' and Traders' to bolster up the Sumpter bank.

Mr. McCort will ask the jury where all the money represented by the forged notes written by Scriber went to. He contends that every time a note was forged and put into the bank by Scriber its face in money went out of the vaults. It is the contention of the prosecution that Scriber got this money and used it for his own purposes.

The directors and stockholders of the La Grande bank will be put on the stand to show that they knew nothing of the manipulations of Scriber and that the cashier had craftily covered up the real condition of things from his associates.

Deciding Water Rights.

Litigation having for its object the adjudication of all the water rights along the Umatilla river and which will probably require several months, if not years, to complete, was started at Echo this morning. The original hearing is taking place before State Engineer John H. Lewis of Salem and F. M. Saxton, of Baker City, who is the eastern Oregon member of the state board of water commissioners. A large number of Pendleton attorneys went down this morning to attend the hearing which will probably continue over until tomorrow or next day. Thursday a similar hearing is scheduled to be held in this city.

Commissioner Saxton came over from Baker City last evening and went on to Echo early this morning. Among those from here going down this morning on the local were Col. J. H. Raley, Judge James A. Fee, Attorney Frederick Steiner, Attorney Harrison Allen of Portland, W. H. Daugherty of Portland, Will Moore, Judge H. J. Bean and Judge S. A. Lowell. Attorney Oliver P. Morton of Portland and Attorney Edward S. Taylor of Hermiston, are also there to represent the government.

The Echo hearing and the one which is to follow in this city next Thursday are the first steps in the movement to settle once and for all the question of water rights in the state of Oregon. The Umatilla river has been selected as the place of beginning by reason of the demand for an immediate adjudication. More water has already been appropriated than flows down the stream during the irrigating season and it is absolutely necessary that some adjustment be reached as soon as possible. —Pendleton East Oregonian.

WISE TALKS By The OFFICE BOY

Say, fellows, I've arrived. I'm hired to help run THE PEOPLE'S STORE. I start in as office boy. I have to unpack the new goods, sweep out, clean windows, dust, run errands, besides weighing and delivering all packages to the express and postoffices and attend to the local deliveries. I also have to help write letters and get up the ads for the newspapers but shucks, I'm not worrying about the brain power I throw in with my services. It's the leg power I'm thinking of.

Honest, I think I'm going to like my job. I like the looks of the people around the store; the boss looks good to me and I've been out of a job so long I'm actually itching for a spell of hard work. The summer season is almost here and there's lots of new summer stuff and the swellest suits coming in now. Only 40 minutes for lunch, too. I guess I'll earn my five per all right. Watch my spiel and get wise.

Medicines that aid nature are always most successful. Chamberlain's Cough Remedy acts on this plan. It loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition.

The acme of perfection in artificial dentures is the 'continuous gum' or porcelain plate as it is absolutely acceptable in all its parts and presents an appearance that leaves no suggestion of the artificial.

They come a little higher than the ordinary rubber plate but they are worth it if you want the best.
