GLASS PROMENADE AT HOT LAKE SOON COMMENCED.

Telegraphic News Service Carried by Observer Pleasure to Readers.

Hot Lake, Ore., May 18.—The Hot Lake Sanatorium band will soon be in position to furnish concert music for sanatorium guests. Prof. Swedensky of Payette, Idaho, has been engaged as director. The gentleman comes highly recommended and says he is agreeably surprised to find so much excellent talent with which to begin. The band will consist of about twenty pieces and regular practice will soon begin.

The plans for the glass promenade are nearly completed and construction work will not be long delayed. This will be one of the finest conservatories in the west. It will be heated from the hot spring which will insure an even temperature at all times, a great advantage in growing tropical plants.

As the weather becomes more settled the number of La Grande visitors on Sundays increases. Last Sunday six automobiles were standing at the sanatorium entrance at one time, all bringing La Grande visitors.

During the month of April twenty three Oregon counties were represented on the Sanatorium register and representatives from sixteen states had been guests. Alaska and Canada also contributed to the guest list.

### Observer Well Liked.

The Observer receives many compliments from Hot Lake guests. It is depended upon for the first out side news as its telegraph service is 12 hours ahead of any other paper reaching us. The Observer news service is appreciated by those who are accustomed to reading the news while it is still new.

# TRUTH No. 7.

Weekly the wires are bringing the news of a new gusher being struck. Hundreds are being made rich over night. Oil is truly proving California's greatest money-maker. HAVE YOU THOUGHT ABOUT OIL AS A SAFE AND EXTREMELY PROFITABLE INVESTMENT? There is big money in oil. The millions made by the Standard and by capitalists in our own state are matters of general knowledge. California is recognized as the best field for oil operations, oil discoveries and oil production today. The money coming from this oil production is being distributed among hundreds of stockholders and is not all going into the pockets of a few men. Dividends exceeding FIFTY MILLION DOLLARS have been paid by oil corporations in this state and the amount is going to steadily increase every day from now on.

Now, there any reason why you shouldn't be one of the lucky ones? Wouldn't it be nice if you were to receive \$500 dividend check every six months, and this check to be paid on an investment of two or three hundred dollars? This is being done regularly in California. Why are you not one of the lucky ones.
