**EVERY TIME** a man wants to get away from all connection with the busy world, the telephone is an important helper.

The local service is useful in arranging his affairs at home, and the Long Distance service of the Bell System helps him to decide where to go and what to take.

By means of his Bell telephone he can find out whether the fish are biting or the birds are flying, and whether guides or horses can be secured.

After he has been out a while if he wants to get word from the city, the nearest Bell telephone is a friend in need.
