ATHLETICS LOOK LIKE WINNERS

Connie Mack's Team the Sensation in American League.

PITCHERS IN GRAND SHAPE.

Bender, Morgan, Plank and Dygert Are a Formidable Quartet—Infield Could Not Be Improved On—Outfield Going Good.

Stop Connie Mack and his band of Philadelphia ball tossers and make a race of it is the slogan all along the American league circuit. The Athletics are the sensation of Ban Johnson's circuit this season, and the team gives every evidence of being a flag winner.

Connie Mack says that his 1910 team is the best string of ball tossers that he ever had in hand, and he has led some formidable Athletic teams in his career.

The Athletics have been hitting the ball hard, fielding in dazzling style, and the pitchers have shown great strength, but more than anything else

they have been playing the game intelligently. Brains and baseball ability, when mixed, form a combination that is hard to beat, and the Athletics appear to have these qualities.

Last year the Mack men would have won the pennant if they had played better baseball in the early lap of the race. But this early weakness was really a blessing, for it showed Connie that he had to make a big change, and this he did, with the result that he has the present powerful lineup.

Mack has a number of topnotchers, whose work stands out above all, yet the others, if less conspicuous, are good enough to make a well balanced machine.

In Collins and Baker the Athletics have two of the surest hitters in the country. Collins is a most baffling customer for a pitcher to combat, for he seems to be able to do almost anything with a ball. On the paths he is both fleet and cunning. Baker is a homerick hitter of the Sam Thompson school. He puts tremendous force behind his swings, and when he meets the ball right it travels like a projectile. Barry fits in nicely at short.

On the first corner Davis, although along in years, is faster than three-quarters of the young first basemen and the superior of most at hitting, while in headwork only Chance, the Chicago first baseman, is his equal.

If Mack's outfield was a trifle weak last year it is vastly improved this season. Dan Murphy is the same old sure catch in right and also a powerful hitter. The veteran Hartsel has picked up wonderfully this season and is in the thick of the run getting. Oldring is also showing steady improvement and playing with his old time confidence and dash. Behind the bat Thomas and Livingston wear well. The pitching staff has star performers, men who have been under fire and are reliable.

Plank and Krause are easily the best pair of left handers in the country. Atkins is another coming portside, while Coombs, Morgan, Dygert and Bender, who recently pitched a no hit no run game against Cleveland, are a formidable quartet of right handers.

There is probably no other team in the fast set so well fortified with brilliant—not merely fair—extra material. McInnes, the kid infielder, is a wonder and no mistake.

Maxwell Wins
 Thrills followed thrills as speeding automobiles shot around the course of the Ingleside Race Course, on April 24th, in the second and final day events of the successful meet promoted by the members of Isham Temple of the Mystic Shrine.
 The winners of the day were divided between Barney Oldfield, with his 200 horsepower Benz machine, and C. O. King, with his Maxwell 30 horsepower stock car. Oldfield lowered his previous record of one mile to 51 5-8, which is a new coast record for the circular track. With the exception of this performance, Oldfield had to take second place in the list of racing honors, as the world's champion met defeat in both the five and fifteen mile handicap events, and in both races King and his Maxwell were the victors. In fact, King proved the surprise of the meet, driving all of his races with much judgment and taking the turns with his car as close to the fence as did Oldfield. In the five mile handicap, Oldfield drove his Knox racer to the utmost, but the handicap was too strong and he could not get the lead away from King. Not only in the handicap events did King and his Maxwell prove stars of the first order, but in one of the first events of the day, the five mile race for cars costing from \$1200 to \$1600, which was one of the best matches of the meet.
 The time for the five mile handicap was as follows: Maxwell, King, 4.40.30; Oakland, Nelson, 4.48.25; Chalmers, West, 4.49.30; Auto Car, finished fourth, and the Knox car, Barney Oldfield driving, fifth.
 In the event number eight, ten miles free-for-all handicap, King and his Maxwell again were the winners, the Maxwell's time being 8.19.30.

Marlin
 WHETHER you live in the city or country, you'll find no .22 calibre repeating rifle like the Marlin Model 1897.
 For the city man it is a perfect companion for the vacation or outing trip. It's light, takes down and packs in a small space. The ammunition is inexpensive. The gun can be used with .22 shorts for target, and is equally capable of handling .22 long or long-rifle cartridges without change of mechanism.
 On the farm the rifle is a necessity. The short cartridge is sufficient for snarrows, squirrels and small game; and the long-rifle cartridge makes the Marlin Model '97 a distinctive weapon for game, foxes, hawks, etc. up to 200 yards.
 The "Marlin Book" of 128 pages, with handsome art cover, is jam full of up-to-date information for all gun-lovers and gives full description of all Marlin repeaters. FREE for 3 stamps postage.
