#### Who the Kuhns Are.

The Kuhn Californian project whose advertisement appears in this issue is controlled by J. S. and W. S. Kuhn, prominent and wealthy bankers of Pittsburg, Penn., the same people who so successfully developed over 400,000 in southern Idaho. Their California project consists of 250,000 acres in the great Sacramento valley and is one of the largest irrigation projects of the age. Seeing is believing. Investigate and be convinced.

## COMPLIMENT TO NEW ORCHARDS

LOCAL ORCHARDS PRAISED BY A HOOD RIVER ORCHARDIST

New Orchards Here Better Than those Growing at Home.

Better new commercial orchards exist in the Grande Ronde valley than in Hood River and there is more symmetry in orchards here than in Hood River, according to M. L. Carter, the Hood River orchardist and prominent fruit union man of that district, who has returned to his home after spending some time here with friends. While here he gave close study to old and new orchards and declares emphatically that the new orchards here class with the finest he has ever seen. There is nothing to compare with them in Hood River. Mr. Carter has extensive holdings in his home section and his opinion is worth considerable, and carries with it much weight as he is in a position to know his subject and cannot be actuated by pecuniary motives.

#### Free Moving Picture Show.

A free moving picture show will be given in Stewards opera house Friday night, June 24th. The feature is the advertising of 250,000 acres of irrigated land in the Sacramento valley, California—the feature is extremely interesting—the moving pictures both amusing and entertaining.
