CAVALIERI.

It's all over! Mighty unpleasant things are being said about Master Cupid, and life has lost its charm for three dukes and a prince, to say nothing of scores of others who would not know what to do with a title if they had one, for that much courted and beautiful prima donna, Lina Cavalieri, has made her choice of a husband. The lucky man is Bob Winthrop Chandler of New York, a member of the rich Chandler family, known to art, science and politics and the wilds of Africa for a generation. When Bob recently proposed to the famous singer she was about to sail for Paris, but told him she would think it over and cable her reply. How the days did drag along! At last it came, with the one word "Yes," and naturally he is the happiest man alive. On the day the decision arrived Mr. Chan-

ler rushed out of his apartments, showered the servants with change and commanded:

"Grit, and grit good and hard, all of you! I want to see everybody else grit today, and then I won't feel so

When asked if he would live abroad after the wedding he said:

"What—me, elected by a discerning New York constituency to be sheriff for three years, to go abroad! I'm not that kind of an American, son."

Professor E. R. Deneell, who has been selected to lecture at Columbia university as the "Kaiser Wilhelm professor," comes from the University of Kiel, Prussia, and is considered one of the foremost historians of Germany. He is not only a teacher, but a deep thinker and one of the men who have made the study of history a new science in Germany by considering events in connection with all the influences and factors actively shaping the course followed by men and peoples.

The "Kaiser Wilhelm professorship" was founded about five years ago and corresponds with the "Roosevelt professorship" at Berlin university. The

first American Roosevelt professor at Berlin was Professor Burgess of Columbia.

The passing of former Police Inspector Thomas Byrnes of New York, who has been ill so long, recalls the busy career of the man who made a name for

THOMAS BYRNES worked his way up with wonderful rapidity.

In 1880 "the czar of Mulberry street," as he was called, completely reorganized the detective bureau of New York and a few weeks later was made inspector. Then he established his famous Wall street "dead line," which has been given a worldwide prominence in the annual of the underworld. He was then made superintendent of police and ruled as an unquestioned autocrat until his retirement. Once King Humbert of Italy offered Mr. Byrnes the title of chevalier and officer of the Order of the Crown of Italy, but the offer was declined.

If your heart palpitates ride the bicycle.

cycle. If four heart, like the old kitchen clock, misses a cog occasionally take a spin on your wheel. If your heart appears to have grown tired of doing business at the old stand wake it up with a century run. This sounds like a patent medicine ad or an attempt to

boom the bicycle again, but it isn't. It's the treatment that Alvey A. Adee, assistant secretary of state, says has cured him of heart weakness, although it might not be wise for others similarly affected to try it before consulting their physicians. Mr. Adee has just gone abroad for another long tour on his wheel, which has been his custom for several years. Some time ago, finding himself in need of outdoor exercise, he took up bicycling, and he says of it:

"I was troubled with my heart at that time quite badly, but found that cycling benefited me greatly. I followed the exercise regularly, not in a strenuous way, but in a safe and sane way, and now the trouble has almost disappeared. I attribute this cure to riding a wheel."

## Maxwell Wins

Thrills followed thrills as speeding automobiles shot around the course of the Ingalls Race Course on April 24th, in the second and final day events of the successful meet promoted by the members of Islam Temple of the Mystic Shrine.

The honors of the day were divided between Barney Oldfield, with his 200 horsepower Benz machine, and C. O. King, with his Maxwell 30 horsepower stock car. Oldfield lowered his previous record of one mile to 51 5-8, which is a new coast record for the circular track. With the exception of this performance, Oldfield had to take second place in the list of racing honors, as the world's champion met defeat in both the five and fifteen mile handicap events, and in both races King and his Maxwell were the victors. In fact, King proved the surprise of the meet, driving all of his races with much judgment and taking the turns with his car as close to the fence as did Oldfield. In the five mile handicap, Oldfield drove his Knox racer to the utmost, but the handicap was too strong and he could not get the lead away from King. Not only in the handicap events did King and his Maxwell prove stars of the first order, but in one of the first events of the day, the five mile race for cars costing from \$1200 to \$1600, which was one of the best matches of the meet.

The time for the five mile handicap was as follows: Maxwell, King, 4.40.30; Oakland, Nelson, 4.48.25; Chalmers, West, 4.49.30; Auto Car, finished fourth, and the Knox car, Barney Oldfield driving, fifth. In the event number eight, ten miles free-for-all handicap, King and his Maxwell, again were the winners, the Maxwell's time being 8.19.30.
