The tables fairly groaned with the goodies to eat, and the Woodell hospitality flowed unstintedly. Scores of friends joined with them in the celebration.

Songs, music and various other features filled an interesting program.

TACOMA'S MAYOR BIG SCRAP ONE WEEK HENCE

EXECUTIVE STEPS UP AND HANDLES STREET CAR WAR PERSONALLY

COMPANY RUSHES APPEAL

When Workmen Are Thrown From a Train Because They Refuse to Pay Ten Cent Fare, Mayor Comes to the Rescue and Personally Runs the Car Into Tacoma Proper—Matter Grows Serious.

Tacoma, June 27.—Taking two policemen with him Mayor Fawcett this morning turned conductor and went to Fern Hill, put officers in the charge of street car platforms, and then personally ran the car to the city. The car carried a number of workmen who had remounted the car after having been once thrown off because they refused to pay more than five cents for the ride.

The trouble arose over the fact that the suburb is in city limits but the company persists in collecting a ten cent fare. The superior court decided that five cents was the maximum the company could charge. Trouble was brewing when the mayor took the situation "by the horns" and started the cars moving on the five cent basis. The company's attorneys will rush an appeal to the supreme court, but until the matter is decided the mayor says he will enforce the five cent fare.

discoverer by Rudolph Francke is called for hearing tomorrow.

Francke was associated with Dr. Frederick A. Cook in North Polar explorations, and alleges that Peary found him ill at Etah and took advantage of his condition to secure his collection of furs, walrus, and narwhal teeth as the price for transportation homeward. Francke demands \$10,000 as the value of the Arctic products which he says he handed over to the commander. The suit was brought in the Berlin courts, notice of the action being served upon Peary when he arrived here to fulfill a lecture engagement.

Rudolph Francke, who is now in Germany, was brought back from the Arctic regions in the Peary relief ship Erik. When the controversy over the discovery of the North Pole waxed warm partisans of Cook charged that certain Arctic trophies and supplies left at Etah by Cook and owned by him, or jointly by Cook and Francke, had been made use of by the Peary party. The accusations were promptly and vigorously denied by Commander Peary.

CHAUTAUQUA COMMITTEE ON BOOM JUNKET THROUGH THE COUNTY TODAY AND TUESDAY

The first stop was made at Hot Lake at the noon hour where the management had the latch string out, and the boosters talked Chautauqua, which commences next Sunday. They are talking Chautauqua all the time without stopping, and Union county will know what is going to happen in La Grande, commencing July 3 and lasting ten days.

SECOND CHOICE SCHIFF INSPECTS GRANDE RONDE

SECRETARY MATOTT ADVANCES A NEW WORKING THEORY

Precincts will Settle Disputed Question Before July Ninth.

Assemblies are somewhat indefinite in outline in this county, following the postponed Republican Central Committee meeting last Saturday night. But a handful of the members were present, and the weighty question was left to each precinct. It is proposed that the precincts which so desire, name delegates to the state assembly by conference appointments. This removes the matter of appointment from a single person. As these delegates are named, by precincts, they will be endorsed by the central executive committee, and they may then go to Portland with proper credentials.

Secretary J. A. Matott, a firm believer in the principle of assemblies but yet, like the others, uncertain how it will apply, advances the second choice provision in the assembly movement. He would have all delegates to the state assembly suggest a first and a second choice and the men who were given the greatest number of first and second choices, should go before the primaries with the endorsement of the assembly republicans. "This would remove," he said today, "all opportunity for machine connivances in suggestion of candidates."

During the coming week more light will be thrown on what the republicans throughout the county will actually do in the matter, but indications point to a delegation of republicans from Union county at the state assembly.

PRaises HOT LAKE AND LIKES THE VALLEY VERY MUCH

One of the Greatest Financiers of the Age, Seen in La Grande.

Hot Lake Sanatorium, Grande Ronde valley and La Grande—that part of it which could be viewed casually from the O. R. & N. windows, were given hasty but appreciative circumspection today at noon when a party of New York financiers, comprising some of the greatest money dealers in the world, passed through Union county in a special train, under the direction of Assistant Superintendent A. Buckley.

At Hot Lake they inspected the institution thoroughly and came away reluctantly, but loud in their praise of the sanatorium's general make-up. Doctor Phy and Fred B. Currey, assisted by Mr. Buckley, were personal escorts of the party through the building.

Jacob H. Schiff, the man who "digs up" the millions annually needed by the entire Harriman system to handle its affairs, was the chief member of the party. With ten others, mostly New York financiers, he is headed for Alaska and Hot Lake and La Grande were the only stops of moment made between Ogden and Portland. With the aged banker and multi-millionaire, were his son, and a nephew, his wife, and several special agents. Chief among the guests were General James H. Wilson, a well known figure in history; G. A. Plimpton, one of the foremost men in active banking circles in New York, was also one of the party. After a brief fifteen minute rest here in which the venerable chief of money markets refused to comment on financial matters, or elucidate on his journey, but did say with considerable spirit that he was highly gratified with the appearance of crops in the west, and especially in this valley, the train moved westward, headed for Portland.
