### FREEZING CAVERNS.

Subterranean Caves That Are Lined With Crystalline Ice.

There are deep cavities and tunneled recesses in the earth far away from sunlight and held in the tight embrace of rocky strata where secret boards of glittering ice find habitation all the year round. Yet down in these queer places the ice is as clear and crystalline as any that nature maintains in the open air. Moreover, it occurs on a truly grand and massive scale.

Imagine thick underground ice walls and floors and crantly fissured columns beautiful in shape and color streaming from roof to floor of lofty rock chambers! And under the slow drip, drip, drip of percolating water this same ice learns to fashion itself into cave adornments—frozen water drops, curling slopes, stalactites and stalagmites of fantastic shape and rainbow hues.

Subterranean cold waves, or "glaciers," as they are frequently called, crop up in some 300 scattered localities in Europe, Asia and America, but all with rare exceptions, whether true ice caverns or grottoes and deep hollows, are confined to the north temperate regions of these continents—that is, to places where there is a sufficiently low temperature at some portion of the year to reach freezing point and render snowfall possible.—Pearson's Magazine.

### Camel Carriages.

Camel carriages are not common conveyances in most parts of India, but on the great trunk road leading to Delhi they are frequently to be seen. They are large, double story wagons, drawn sometimes by one, sometimes by two or even three camels, according to their size. Iron bars which give them a cage-like appearance were originally intended as a defense against robbers, and the carts were probably also used for the conveyance of prisoners.

### Mr. Sad Fate.

"What a beautiful little girl she is!"  
"Yes, and, just think, she'll have to marry a mere American unless her father chirks up and exhibits more ability as a financier than he has ever shown thus far."—Chicago Record-Herald.

### Stingy.

"He is a stingy old curmudgeon, isn't he?"  
"The worst I ever saw. Why, he'd haggle over the cost of building a spite fence."—Exchange.

### LONG NEGLECTED DADS HAVE HOLIDAY OF OWN.

Spokane Wife Starts Movement For Fathers Since Mothers and Children Are Honored.

Now comes the day of recognition for the neglected father, and if the movement inaugurated at Spokane, Wash., is followed a national observance of dad's merits will be launched.

Officers of the Spokane (Wash.) Ministerial alliance and the Young Men's Christian association are sending invitations to churches and allied organizations all over the United States to pay tribute to the head of the house on fathers' day, Sunday, June 19, the rose being suggested as a suitable flower to wear.

Mrs. J. B. Dodd of Spokane, originator of the idea, thus explained the plan for a national movement in a petition to the ministers of that city:

"The beautiful custom of mothers' day suggests the question, Why not a fathers' day? This is further emphasized by the celebration of children's day by our Sunday schools. Fathers' day would call attention to such constructive teachings from the pulpit as would naturally point out:

"The father's place in the home.  
"The training of children.  
"The safeguarding of the marriage tie.

"The protection of womanhood and childhood.

"The meaning of this, whether in the light of religion or of patriotism, is so apparent as to need no argument in behalf of such a day, to be celebrated all over the country."

Rev. William J. Hindley, pastor of the Pilgrim Congregational church, of Spokane, said of the plans:

"I'm glad there will be an opportunity to speak a few kind words in public for 'the old man,' who is entitled to a lot of praise. In fact, I do not believe any of us can say in words more than dad deserves."
