**DR. MENDELSSOHN'S GLASSES GIVE THE BEST RESULTS. GUARANTEED SATISFACTORY IN EVERY RESPECT.**

#### WHEN YOU ARE SICK

It doesn't take a good doctor to tell you that—most anybody could do that much, but to tell exactly the nature of the disease sometimes calls for the utmost skill of the physician. Most anybody by a few simple tests could tell that your eyesight was defective and that you needed glasses of some kind, but to diagnose the exact trouble and fit the right glasses calls for more than ordinary skill.

We have made that one thing a lifetime study and we are in business to bring wrong eyes and right glasses together. High-class work at the lowest possible prices.

**DR. H. P. MENDELSSOHN DOCTOR OF OPTICS**

PERMANENTLY LOCATED AT 1105 ADAMS AVE., OPPOSITE POST OFFICE. OFFICE HOURS 8:30 a. m. to 12 m.; 1 to 5 p. m. EVENINGS BY APPOINTMENT

Joseph Tyler of Durkee made final proof on a homestead proof at the land office today.

Christ Shackland brought over a choice crate of cherries today and had them photographed by Ritter. They were the Lambert variety and especially choice.

Miss Beas Hufford of Portland, recently returned from a trip to Yellowstone park, went on to her home this morning, after a short visit with Miss Ethel Gulling.

J. H. Henderson, one of the Elgin merchants, was in La Grande this morning on his way home from a trip east, during which he visited his old home in Missouri.

District Superintendent J. D. Gillilan is on his way to John Day this morning, after spending one day at home. He will be gone about a month.

## TWO BOYS CARRY CHECKS THAT ARE BAD

### ALSO ACCUSED OF HAVING COMMITTED OTHER FORGERIES

#### Captured Up Whisky Creek After Long and Strenuous Night Ride.

Two North Yakima youths aged about twenty years, are in the toils of the law this afternoon, having been arrested at the head of Whisky Creek last night by Constable Faulk, following allegations of forgery. The boys were brought to La Grande this morning, and one of them named Edwards, was bound over to the grand jury, and the other, a fellow who gives his name as McCarthy, will be given a hearing this afternoon.

The alleged forgeries involve the names of Nils Holverson at Hilgard, and S. F. Richardson, representative from Union county. One check reading for \$125 is made out against a North Yakima resident and is signed by a name not known here. The Holverson check is for a small amount and one of the so-called Richardson checks reads for \$25 and another for a smaller amount. One alleged bad check was cashed by Hotel Proprietor Porter at Hilgard.

The arrests were made on information from North Yakima where the bad checks showed up. The other alleged forgeries were found on their person, along with a little cash.

The arrests followed a long chase up through the mountainous districts out from Hilgard, and a guide, with the constable, had a long and arduous trip before overtaking the boys in camp where they were snatching a brief rest.

#### Troops After General Bonilla.

New Orleans, July 23.—A strong detachment of British troops in trailing pursuit of General Manuel Bonilla, former president of Honduras, who is sailing in two schooners to attack Puerto Cortez and Ceiba.

#### Pyramid of Cheops.

Vast as modern skyscrapers are, not one has yet equalled the weight and massiveness of the pile of great stones which the swarming human ants of the Nile valley laboriously dragged together thousands of years ago until they had built the pyramid of Cheops. It would make a solid block 600 feet square and 390 feet high.

#### Liquid Air.

If liquid air be frozen to the consistency of slush a strong magnet suspended over it will withdraw the solid oxygen, leaving the nitrogen, a jelly-like mass, in a vessel.

#### The Alexandrian Library.

The library at Alexandria suffered plunderings on various occasions, but it remained practically intact until A. D. 650, when it was destroyed by the Saracens under orders of the Caliph Omar. Thus disappeared a noble collection that had endured some 930 years.

#### The Adirondack Plateau.

The average height of the Adirondack plateau is about 2,000 feet, although there are many peaks that are over a mile high.

**Lower Californian Fish.**  
 Baracoda, rock cod, halibut, white set bass, rock bass, mackerel, whitefish and other varieties are said to abound in the waters of Lower California.

**The Poisonous Poppy.**  
 In Turkey if a man falls asleep in the neighborhood of a poppy field and the wind flows from the field toward him he becomes narcotized and would die if the country people, who are well acquainted with the circumstances, did not bring him to a well or stream and empty pitcher after pitcher of water on his face and body.

**Wooden Heels.**  
 The so called "French" heels for women's shoes are made by hand of birch wood that has been seasoned at least two years.

**Missouri's Lead Mines.**  
 The lead mines of Missouri, which have yielded tens of millions of dollars and are not yet half worked out, were originally discovered by a boy and a dog. The dog was chasing a rabbit and fell into a hole, and it was in getting him out that the boy found a piece of ore and took it home to show his father.

**Safest Place on a Train.**  
 The safest place to ride in a railroad train is in the middle of the middle car on the right hand side. Thus the danger of being injured in fore or aft collisions or side swipes is minimized. This is old, but will bear repeating.

**Camel Caravans.**  
 Nearly 90,000 camels are used in the vlayet of Bagdad as beasts of burden, and with donkeys they form the only means of carrying goods to inland points. Camel caravans go in "strings," seven camels to the string, with two men in charge. For a camel 450 pounds is a good load, the pack being divided into halves.

**"S 5 S."**  
 The American wireless signal of distress, "S 5 S," was adopted because easily made and quickly recognized. three dots, three dashes and three dots.

**Light of the Sun.**  
 The sun gives 600,000 times as much light as the full moon, 7,000,000,000 times as much as the brightest star in the sky and 38,000,000 times as much as all the combined stars of the heavens.

**How Greeley Learned to Read.**  
 By a singular adaptation to the changes of motion on his mother's part while spinning Horace Greeley when a youngster acquired the unwonted quality of reading with the book in almost any position, sidewise or upside down, as readily as in the usual fashion without at that time thinking it anything unusual.

**Metals.**  
 Within the last two centuries about fifty metals have been discovered by chemist explorers, but use has been found for only a few of them.

**Freaks of Lightning.**  
 Lightning has struck, plucked feathers from and insides out of chickens and, better than some cooks, roasted them to a proper turn for the table. It has roasted apples on the tree and corn on the stalk and has struck goober and potato vines and cooked the goobers and tubers in the very ground.

**Porto Rico Windbreaks.**  
 For raising oranges or grapefruit in Porto Rico windbreaks are absolutely necessary if the grove is exposed to the trade winds, which blow continuously for nine months and which cripple unprotected trees.

#### NOTICE TO CREDITORS

In the District Court of the United States, for the District of Oregon. In the matter of Albert Graham, bankrupt, in Bankruptcy. To the Creditors of Albert Graham of Troy, in the county of Willowa and District aforesaid, a bankrupt: Notice is hereby given that on the 8th day of July, 1910, the said Albert Graham was duly adjudicated bankrupt; and that the first meeting of his creditors will be held in the office of the Referee in Bankruptcy in La Grande, Oregon, on the 4th day of August, 1910, A. D. at 3 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt, and transact business as may properly come before said meeting.

JNO. S. HODGIN, Referee in Bankruptcy.

July 22, 1910. July 23-25.

**A Costly Prayer Book.**  
 Queen Elizabeth used to carry about with her suspended by a chain of pure gold a book called "The Golden Manual of Prayer," a dainty volume of 300 pages bound in "hammered virgin gold." One side of this costly volume gave a representation of the judgment of Solomon, the other the brazen serpent on the cross in the desert.

**Galileo's Telescope.**  
 Galileo's telescope, by which he discovered the satellites of Jupiter in January, 1610, is carefully preserved in the Museum of Physics and Natural History in Florence. Galileo's was the first practical telescope made.

**Progress.**  
 Life is a race the winner runs. His fullest strength applying. Unless equipped in modern ways He wins the race by flying.

**The Reason.**  
 "So you are a vegetarian?"  
 "Yes."  
 "Been one long?"  
 "Yes, a long time."  
 "Ah, ethically I suppose."  
 "Not at all—financially."

**The Reason.**  
 "Water won't run uphill."  
 "Why?"  
 "It isn't strong enough."  
 "That's so. We always say as weak as water, don't we?"
