WALLOWA FIRES RAGING

SMOKE FIRST MISTAKEN FOR EFFECTS OF OTHER FIRES

Large Sections of Wallowa County Forests are Aflame.

Enterprise, Ore., Aug. 2.—Forest fires are now known to be raging in portions of the Blue Mountains here. What was at first mistaken to be drifting smoke from the north fires, has proven to be serious fires in the northwest, south and southeast of Enterprise. Sunday evening smoke in great clouds, extending against the sky perhaps twenty miles, was seen rising from the timber sections west of here. South the same sight presented. Southeast the mountains were clothed in smoke, and fire has been found on the west fork of the Wallowa river. Back farther into the mountains the peaks can not be seen from here or Joseph owing to the smoke. Rangers are on the scene and it is thought the flames will be prevented from spreading into a wide, general conflagration. Little or no danger exists in the immediate vicinity of Enterprise, nor along the slope of mountains on this side, owing to the absence of all underbrush on this side. The underbrush was totally destroyed by private fires.
