Alaska's Coast Region.

The coast region of Alaska has a mild climate, not colder than the northern part of Puget sound or of Scotland. The stand of trees is dense, averaging for considerable areas 25,000 feet per acre. Sitka spruce forming about 20 per cent of the stand and western hemlock about 75 per cent. Although by far the most abundant species, western hemlock does not produce as large individual trees as the spruce or western red cedar, the former occasionally showing a diameter of six feet with a height of 150 feet and the cedar diameters of from three to four feet.

"Black Bart." Road Agent.

Charles E. Boles, known to fame as "Black Bart," was incomparably the most conspicuous character in the history of western stage robbers. From 1875 to 1888 "Black Bart" is known to have committed twenty-seven stage robberies single handed. Northern California stage drivers stood in constant fear of this unique desperado. On various occasions the drivers were able to give a good description of his figure, hair, feet and hands, yet no clew to his actual identity was gained during the eight years of his stage robbing career. He was finally betrayed by a laundry mark on a cuff which had dropped from his wrist when opening a treasure box which he had taken from a Wells Fargo stage in San Joaquin valley. When he was finally captured in San Francisco the detectives were amazed to find the famous "Black Bart" a slight, quiet mannered man of fifty-five, familiar in face to all the San Francisco detectives. He had for years frequented a little restaurant near police headquarters where many of the detectives dined.—W. C. Jenkins in National Magazine.

In the Stilly Night.

"What is it?" the druggist sleepily inquired from his bedroom window.
"This ish drug store, ain't it?" asked the man who had rung the night bell.
"Yes. What do you want?"
"Want to look in your city direct minute an' seee where I live."—Philadelphia Ledger.
