## Finishing Touches Being Added To The Foley Hotel

Popular Home for Travelers will adopt European Plan this Fall—  
New Furniture and Latest Improvements Added Throughout the  
Building.

Determined to keep abreast with  
the times and the rapid growth of La  
Grande, the Foley hotel is now re-  
ceiving the finishing touches of an im-  
provement campaign which has trans-  
formed the large building into one of  
the most modern hotels in the north  
west.

The Foley hotel has been a part of  
La Grande since 1891, when Jerry Fo-  
ley erected the first brick hotel build-  
ing between Portland and Salt Lake.  
In those days it was uncommon to  
have a room with a bath and this hotel  
was the first one on the O. R. &  
N. outside of Portland to boast of that  
luxury. Business grew with the city  
and in 1900 Mr. Foley found it neces-  
sary to build an addition to the old  
read large hotel building.

**Change Interior Appearances.**  
This spring when the Foleys decid-  
ed to run the hotel themselves after  
having had it leased for some time,  
plans were drawn for extensive inter-  
ior changes and work has been in  
progress all summer. Of the 111  
guests' rooms, of which many are en  
suite, each has been thoroughly gone  
over and brightened with paint and  
paper and in many instances new  
plumbing has been installed. Nothing  
has been spared to make the rooms  
first class and each represents quite  
an investment of capital as they now  
stand.

**Lobby Has Been Improved**  
A hotel lobby is a giver of impres-

the new Imperial hotel plant in Port-  
land.

**Grill Room to be Improved.**  
It will only be a short time until  
the Foley hotel will cease the Ameri-  
can and adopt the European plan,  
which means the establishment of a  
first-class grill. With that end in view  
improvements are being made in that  
department, consisting of new furni-  
ture, fans and a music balcony, which  
will be used by an orchestra that  
will furnish music for Sunday evening  
dinners and special occasions.

**Install a Ladies' Lobby.**  
What has been used as a parlor  
heretofore on the second floor, will  
be utilized for guests' rooms and the  
hallway, which is 38x30 feet is to be  
fitted with easy chairs, tapestry and  
soft cushions for a ladies' lobby. This  
is a new departure and it is thought  
will be very popular with lady guests,  
who desire a few moment's rest, yet  
do not wish to go to their rooms.

**New Fire Escapes Added.**  
Fire protection in a hotel is one of  
the essential things and the Foley  
Brothers did not overlook this for  
they have had erected three of the  
best inventions in the fire escape line.  
The new ladders are so swung that  
the weight of one person will swing  
the ladder from a horizontal to a per-  
pendicular position, thus permitting  
easy exit from the building. With  
three of these it is possible to remove  
every guest from the building in a  
brief time.

**Trees are to Stand.**  
The touch of nature that is so no-

sion, for it is the first portion that is  
seen and therefore impresses itself  
upon the guest. With this fact in  
mind the proprietors have used excel-  
lent taste and have worked the lobby  
over from floor to ceiling. The walls  
are finished in Oregon fir two thirds  
of the way to the ceiling and the in-  
tervening space is tinted with pink.  
The ceiling is of steel carrying a late  
design and painted in a color that  
harmonizes with the walls. New writ-  
ing desks, easy chairs and settees  
have been installed. The lighting ef-  
fect has also been changed and is pat-  
terned after the latest ideas of elec-  
tricians who devote their time to plan-  
ning for the larger hotels of the  
country. Four large chandeliers will  
be installed at once and the door lead-  
ing to Adams avenue will be of the  
revolving type.

The lobby is covered with Raecolith  
the most modern floor covering for  
hotels and public buildings. This  
same composition will be used on the  
dining room and kitchen floor.

**A news stand and large cigar case**  
will be placed in the northeast cor-  
ner of the lobby.

**Large Range on Way.**

The large steel range built espe-  
cially for the Foley hotel, has not ar-  
rived as yet, but is expected any day.  
When it comes the hotel will close its  
dining room for a few days to install  
the range and make other kitchen im-  
provements. A steel ceiling is to be  
placed in the kitchen and everything  
done to make a thorough sanitary  
interior. The kitchen plant, which in-  
cludes range, different machines for  
preparing food, cold storage depart-  
ment, etc., will be completed in every  
detail and will be along the west of

the hotel in the shade  
trees that have been carefully nursed  
for years, is to stand. When the city  
decided to pave, there was some talk  
of removing these trees but the hotel  
owners urged their importance so  
strongly the project was finally aban-  
doned and a cement section has been  
laid around the trees, giving plenty  
of room for the roots and trunks to  
grow.

With these many improvements La  
Grande cannot help feeling a special  
pride in the Foley Hotel, and Jerry  
Foley, the owner, shows a great satis-  
faction over the change. The young  
men in charge are energetic and know  
the hotel business so well that the  
traveling public are assured always  
of the most careful consideration and  
perfect service.

### Dandruff Means Baldness.

Wise people say there is nothing  
sure in this world but death and taxes.

But that dandruff means baldness  
later on, is just as sure as either  
death or taxes, and every physician  
knows it.

Dandruff is caused by a germ—a  
vicious, persistent, tenacious germ—  
that up to the discovery of one of the  
world's greatest scientists, was sup-  
posed to be unkillable. That discov-  
ery is called Parisian Sage, and New-  
lin, the druggist, who is the agent in  
La Grande, guarantees it to kill every  
dandruff germ and remove all traces  
of dandruff in two weeks or money  
back.

But Parisian Sage is more than a  
dandruff filler; it is guaranteed to  
stop falling hair, itching of the scalp,  
and all diseases of the hair and scalp.

It contains just enough of sage  
properly combined with other ingre-  
dients to make a woman's or man's  
hair grow luxuriantly. It makes ev-  
erybody's harsh, lusterless hair  
change to soft, lustrous and beautiful  
hair. A Newlin sells it at 50 cents a  
bottle, or you can get it direct from  
the American makers, The Groux  
Mfg. Co., Buffalo, N. Y., at the same  
price, by express, all charges prepaid.
