EXPERIMENT DAY PROGRAM OUT

INTERESTING ADDRESSES SCHEDULED FOR SATURDAY.

Resume of Work Being Carried Out at the Experiment Station.

Union, Aug. 24.—Special.—The program for the Farmers' Day celebration at the Union county experiment station is complete, and will be carried out August 27, as follows:

10:30 to 12 A. M.—Visitors will be given opportunity to look over experimental plots.

2:00 to 4:00 P. M.—Addresses delivered at Experimental station.

Greetings from Citizens of Union, L. A. Wright, Mayor, city of Union.

Address of welcome, Hon. J. K. Weatherford, president board of regents.

Response, Hon. Walter M. Pierce chairman of station committee of the board of regents.

Good Roads, Hon. Jay Bowerman, acting governor state of Oregon.

Agricultural Education, Dr. W. J. Kerr, president Oregon Agricultural college.

The Live stock Industry of Eastern Oregon, D. O. Lively, general agent of the Portland Union Live Stock Yards Co.

The station is carrying on investigations along three lines, namely: Oonomy, Horticulture and Animal Husbandry.

The work in Agronomy consists in plant breeding, variety tests, crop rotations and cultural methods.

The station has produced several

very promising barleys which are the results of crosses between Black and Beardless, Chevalier and Bald barleys.

The two wheats which are best adapted to this valley are Forty-fold and Little Club. The former is a heavy yielder, but shatters readily. The latter is not considered a heavy yielder, but does not shatter. The milling qualities of the two are such that it requires a mixture of the same in order to manufacture the best grade of flour. The station has produced a hybrid between these two, which combines the desirable physical qualities and it is believed will furnish the milling test.

New varieties of grasses, grains and forage crops are introduced in order to test their adaptability to Eastern Oregon's conditions.

Crop relations and cultural methods are planned to increase soil fertility, improve physical conditions of soil, destroy troublesome weeds, and conserve moisture. In the rotation experiments is not the intention of the station to discourage the wheat farming, but rather to encourage a system of farming whereby the farmer is able to produce more wheat.

Considerable co-operative horticultural work has been carried on among the fruit-growers in controlling insect pests and fungus diseases. Variety tests of vegetables and small fruits have been made. A demonstration orchard has been planted, showing proper distance between trees, cultural methods and general care of same.

The work in animal husbandry has been confined to breeding and feeding experiments with hogs, in order to ascertain the most profitable hog for the farmer and what feeds will produce the most economical gains.

The station is encouraging the growing of field peas and hogging off same. This practice, under favorable conditions, will enable the farmer to produce \$25 worth of pork per acre, besides increasing of the fertility, humus and moisture contents of his soil.

COCHRAN IS WELL QUALIFIED

FITTED PARTICULARLY TO THE OFFICE WHICH HE SEEKS

Has Handled Irrigation Law and Knows Its Application Well.

Attorney George T. Cochran of the law firm of Cochran & Cochran in this city, has commenced a conservative yet systematic campaigning for nomination at the republican primaries to the office of water commissioner for Eastern Oregon.

The office is very important. The water user of Oregon knows it to be such, and the settlement of water rights and proper regulation of the use of water is a vital question to the whole of Eastern Oregon. With this fact as a premise it need not require much deductive reasoning to come to the conclusion that the office of water commissioner is all important and

GEORGE T. COCHRAN

Candidate for nomination to the office of division water commissioner in this district.

requires a man who is versed in irrigation law. This Mr. Cochran has mastered, for his firm has handled many important water cases, necessitating weeks of study and deliberation on that phase of the Oregon statutes. Since his graduation from the law school of Stanford university, Mr. Cochran has been practicing law continuously. He was graduated from that school in 1901. These virtues and merits are going to count for much with Mr. Cochran when he asks for votes at the primaries. The second district, embracing Eastern Oregon, includes the irrigation districts of Baker, Union and Umatilla counties, as well as Wallowa and several others in this section of the state.

TOWNSEND CASE NEXT UP

TWO INDICTMENTS AGAINST HIM TO BE TRIED OUT

Kennedy and Remillard Next Bootlegging Defendants, Say Dockets.

When circuit court convenes next Monday, in connection with the calling of the trial and grand juries, the two cases wherein Victor Townsend is charged with bootlegging, will come up. The first case to be tried is designated as the Townsend whisky and the other case has the cognomen Townsend nearbeer case. The alleged violations of the law are said to have occurred at the Palmer lumber camp near Palmer Junction.

The third case set for trial is that of the state against Kennedy and Remillard.

Crown Prince Will Tour the Orient.

Berlin, Aug. 24.—It was announced today that the plans for the oriental tour of Crown Prince Frederick William have been arranged. The Prince will not return to Germany from India by way of the United States, but will choose an altogether different route.

MOTION FOR NEW TRIAL DENIED

STANDLEY WILL NOT GET NEW TRIAL OVER DAMAGE CASE

Affidavits Alleged Jury had Been too Freely "Shown" by Officials.

A. E. Standley, the man injured in the O. R. & N. turntable pit some months ago, and who lost the verdict when he sued the company for damage money, will not get a new trial, notwithstanding strenuous efforts on the part of the counsel for defense, plaintiff, John S. Hodgins.

With several affidavits from members of the jury which rendered a verdict for the railroad company, in his possession, Attorney Hodgins went before the court yesterday afternoon arguing for a new trial. The counsel and the affidavits, too, stipulated that the railroad officials took advantage of the fact that the jury had gone to inspect the premises at the round house. It is said that the officials gave something of a demonstration of what the working principles of the turn tables are, which the plaintiff held to be legal.

Judge Knowles, who heard the motion yesterday afternoon, overruled the motion, however. C. E. Cochran, representing the railroad company, raised the point that Standley, who was at the turntable and witnessed what was said to be too free demonstrations to the jury, would have objected to the proceedings at that time, rather than takes the changes on the verdict.

COAL WILL SOAR THIS FALL

COAL STRIKE IS ORDERED CONTINUED BY MINERS.

Prices Have Already Commenced to Go as Result of Announcement

Chicago, Aug. 24.—President Moorehead of the Illinois Mines Federation, announced the coal operators had voted nearly unanimously to continue the great coal strike. A shortage of coal is assuming serious proportions and the price is advancing rapidly.

Clericals are Defeated.

Madrid, Aug. 24.—Plans for the clericals to concentrate their forces at San Sebastian, August 27, and at Victoria September 4, have been blocked by administration leaders. Clericals are freely threatening Spain with a nation-wide demonstration on September 15.—It is believed that such action may precipitate in long delayed civil upheaval. Under order of the premier Canjelas, the administration seized all means of transportation early in the month, and thus prevented a gathering which was planned by the clericals, to take place at San Sebastian.

Madrid Fleeing.

Washington, Aug. 24.—Reports from Bluefields indicate that Madrid is in full flight, with his associates, and is headed to Costa Rica. Estrada today released 200 political prisoners from Caudon Island.

Experienced Men to Fight Flames.

Washington, Aug. 24.—Associate Forester Porter today ordered fifty experienced fire fighters to proceed to the forest fire front in Montana from Ogden. They will replace the inexperienced men now there.

Canning Peaches.

Nice canning peaches at 85 cents and \$1.00 a box, while they last. CITY GROCERY AND BAKERY.

Virginia Firemen Meet.

Alexandria Va., Aug. 24.—Preparations have been made for the entertainment of more than a thousand firemen during the annual convention and tournament of the Virginia state Firemen's association. The meeting opened today, and will continue three days.

BELL PREFERS CHARGES.

Carries His Political Campaign into Fraternal Wars of St. Louis.

St. Louis, Aug. 24.—After a session lasting throughout the night, listening to charges of graft preferred by the order of Theodore Bell, the democratic gubernatorial candidate in California, the session of the national convention of Eagles, was resumed today.

Bell charged several prominent members of the order with participating in a scheme to divide \$500 received from the sale of receipts for numbering machines for the local aeries. The men charged by Bell are Past Grand Worthy President Krause, of Wilmington, Del., Martin Gray of New Haven, and Thos. Hayes of Newark. Bell is candidate for the grand presidency of Eagles.

Rothwell explains, "we make last year's crop in each state the basis for this year's estimate, increasing or diminishing the percentage as the crop is correspondingly lighter or heavier. For illustration: If a given state is rated at 80 per cent, it means the crop this year is equal to four-fifths of the crop of a year ago, or if given at 200 per cent, the crop in such a state is just twice as large as a year ago.

Appended is the crop estimate, with percentage of yields, as compared with 1909.

CROP AVERAGES LARGE

Spokane, Wash., Aug. 24.—Special.

Apple growers in the Pacific or box group, taking in Washington, Oregon, Idaho, Montana, California, New Mexico, Utah and Colorado will this year have the largest crop ever harvested in these states and the fruit promises to be of exceptional good quality according to a report on the condition of the yield in the United States and Canada, received by W. D. Finley, assistant secretary in Spokane, of the Fifth Day Farming Congress from C. P. Rothwell, secretary of the International Apple Shippers' Association.

"In accordance with the practice of our association for several years," Mr.
